Westchester's Quality Nursery Since 1898

Howard C. Taylor, President

WHILE OUR SERVICE to the gardening public dates back to 1898, our **modus operandi** has kept pace with the years and no other period in our business history has progressed as rapidly in improvement of service as the last few years.

Particularly we have developed methods of handling stock which permit having **ready-to-go when you visit the nursery**, all types of stock, fresh dug, extra vigorous and in every way of the highest quality.

This year we are prepared to handle even more quickly a larger assortment of varieties entirely suited to this area, waiting for you to make your selection. Much of the material you will want to take right with you in your car.

Additional personnel will be ready to handle your needs, and serve you intelligently.

Stock from our nurseries will start growth quicker and will grow as vigorously as good culture and scientific methods of handling can make it.

We invite you to Rosedale.

Howard C. Taylor
President

PLANT AMERICA

OFFICE AND SALES DEPARTMENT

Beautify Your Home and Grounds with Good Landscaping...

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

CREATE THE BEST EFFECTS AND
OBTAIN THE MOST USEFUL RESULTS FOR
Your LIVING

by Planting Good, Thrifty Plants
in the Most Appropriate Places.

Plan — Then Plant

We are ready to help you with your planning. We shall be glad to discuss your landscaping and make suggestions at the nursery if you will bring plans, measurements, pictures, etc. **There is no charge for such consultation at the nurseries.**

Consultation at Your Home

A representative of our experienced and specially trained landscape staff will be glad to call at your home and go over the grounds with you to discuss your landscaping problems. Special attention can then be given to exposures, terrain and special living areas, and if desired, a detailed planting plan may be drawn up.

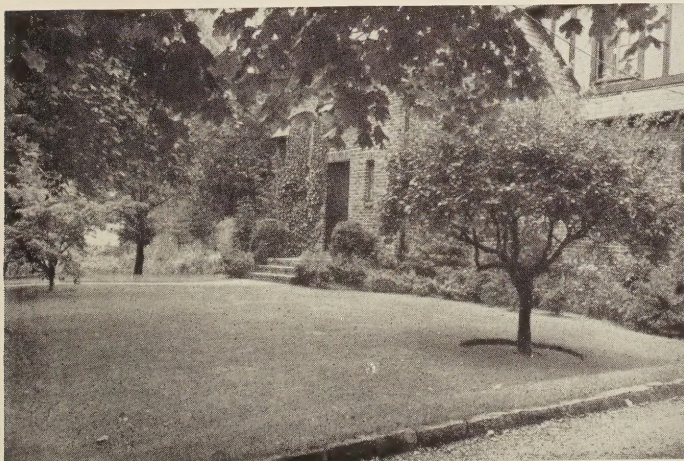

There is, of course, no charge for calling at your home and giving an estimate of costs for planting. However, if a plan is desired, there is a small fee consistent with the size of the plan, the location of the site and the time involved. We shall be glad to give further information upon request.

We Stand Ready to Help YOU

With a Rosedale planting you will have beauty, permanence and utility. Our fifty-four years of experience in the nursery business in Westchester County is your assurance of satisfaction and dependability. No job is too small.

◆ A Rosedale Planting LASTS LONGER — Costs No More ◆

FLOWERING SHRUBS

Important to the Well-Designed Landscape

Bring You Colorful Blooms—Thick, Green, Summer Foliage—Brilliant Leaf-Colorings in Fall—Fascinating Branch Patterns in Winter

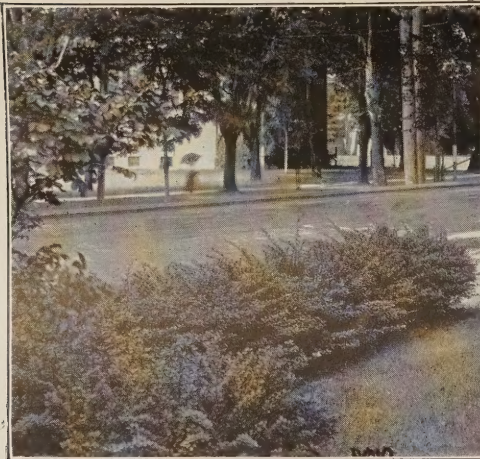

Effective and Useful:

In beds, borders and hedges In groups As Screen planting to bring
As background for other planting As Specimens Summer privacy

FLOWERING SHRUBS introduce one of the most inexpensive ways of obtaining better landscaping. An unusually large number of varieties awaits you here at the nurseries. We list below some of them.

*All Flowering Shrubs Are Bare Root (BR) Except Where Indicated BeB
Planting Instructions: Bare Root, Page 8; BeB, Page 31*

S—Slow growing M—Moderate growing F—Fast growing

BARBERRY (*Berberis Thunbergii*)
18 to 24 in., \$55.00 per 100

Amelanchier canadensis

Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early spring and maroon fruit in June. F
3 to 4 ft. \$2.50

Aronia arbutifolia **BRILLIANT CHOKEBERRY**

Handsome, red Autumn foliage and brilliant red berries on shrub of modest, upright growth. F
2 to 3 ft. \$1.50

AZALEAS, Deciduous Types

Both deciduous and evergreen types of Azaleas will be found listed under **Broadleaved Evergreens**.

Berberis Thunbergii **JAPANESE BARBERRY**

Commonly used in hedges. Red berries in Fall.
15 to 18 in. 50c. each, \$45.00 per 100
18 to 24 in. 80c. each, \$55.00 per 100

Berberis t. atropurpurea **REDLEAF BARBERRY**

Very similar to *B. Thunbergii* except for the ever-colorful leaves which are bright red in the Spring; purple-red in the Summer and blazing scarlet in Fall. Also berries heavily.

15 to 18 in. 75c. each, \$70.00 per 100
18 to 24 in. 90c. each, \$85.00 per 100
2 to 3 ft. \$2.50 | 3 to 4 ft. \$3.50

Buddleja **BUTTERFLYBUSH**

Tiny, delicate florets cover the graceful spires of the Butterflybush, so irresistible to butterflies. All are excellent as cut flowers blooming in August and September. A delightful addition to the Shrub planting.

Empire Blue. We have seen no other Blue Buddleja that compares with this; lovely Aster blue. Charming. A glorious lavender-pink.

White Bouquet. Long, lovely, fragrant glistening white sprays.

Royal Red. First truly red Butterflybush, fragrant.
2 yr. 90c. each | 6 in. pots. \$1.50 each

SPECIAL COLLECTION—BUDDLEJA
One each of these 4 fine varieties, \$3.50

Callicarpa purpurea **BEAUTYBERRY**

A graceful, spreading shrub bearing an abundance of small, pink flowers in August, followed by innumerable glittering, lavender-blue berries in dense clusters along the branches. F

18 to 24 in. \$1.25

Calycanthus floridus **SWEET SHRUB**

This lovely, old-fashioned shrub with its chocolate-colored blossoms is a must for every garden. It derives its name from the spicy fragrance of the leaves and bark.

2 to 3 ft. \$1.25
3 to 4 ft. 2.00
3 to 4 ft., heavy \$3.50 to 5.00

Caryopteris • BLUE MIST

Blue, mist-like blooms from August to frost. M

2 yr. plants. \$1.50
Heavy, pot-grown. 2.00

GROUND COVERS

Lonicera japonica Halliana • HONEYSUCKLE

Semi-evergreen ground cover with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently covers barren areas. F
2 yr. 50c. each, \$5.00 per doz., \$37.50 per 100

Pachysandra terminalis • JAPANESE SPURGE

Most popular evergreen ground cover plant; spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. M

Rooted Cuttings. \$6.00 per 100, \$50.00 per 1000

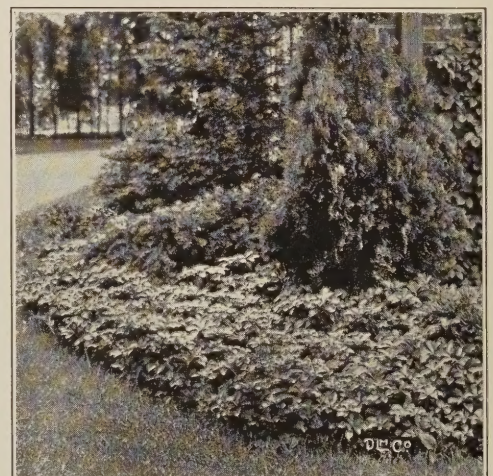

Vinca minor • MYRTLE

Dense, evergreen ground cover, with small, dark, green leaves on slender trailing branches. Blue flowers in late Spring. M

2 yr., field-grown. \$3.75 per doz., \$25.00 per 100

Vinca minor, Bowles Variety. Similar to *V. minor* in form and evergreen habit of growth but with lavender-blue flowers all Summer. S

2 yr., field-grown. \$4.50 per doz., \$35.00 per 100

PACHYSANDRA

\$6.00 per 100

FLOWERING SHRUBS—Continued

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

Chaenomeles • FLOWERING QUINCE

Chaenomeles lagenaria. Early blooming, deep crimson flowers; shiny green foliage. M
18 to 24 in.\$1.25 | 2 to 3 ft.\$2.00 | 3 to 3½ ft. heavy. \$3.00 to \$4.50

Chaenomeles Hybrids bear larger flowers in profuse clusters before the shining green leaves appear.

Afterglow (Plant Pat. 817). Double, snow-white gradually becoming soft rose.

A distinct novelty. 3 to 4 ft.
Blood Red. Large, deep red. Early variety. 2 to 3 ft.

Candida. White. 1½ to 2 ft.

Cynthia. Soft, peach-pink. 3 to 4 ft.

Early Appleblossom. A delightful blend of light and deep pink. 1½ to 2 ft.

Enchantress. Luscious shell pink. 1½ to 2 ft.

Juliet. Coral pink. 1½ to 2 ft., 3 to 4 ft.

Knaphill Scarlet. Vermilion-red flowers on a very low, mounded bush. 2 to 3 ft.

Margaret Adams. Soft coral-pink. 3 to 4 ft.

Pink Lady. Clear pink. 1½ to 2 ft.

Stanford Red. Tomato red. 1½ to 2 ft.

1½ to 2 ft.\$1.75 | 2 to 3 ft.\$2.50 | 3 to 4 ft.\$3.50

Chionanthus virginica • WHITE FRINGETREE

One of the most striking native small trees or shrubs. Handsome glossy leaves and masses of loose panicles of feathery, snow-white flowers in Midsummer. F

3 to 4 ft.\$3.50

HYDRANGEA PEEGEE

3 to 4 ft., \$1.75

Clethra alnifolia SWEET PEPPERBUSH

Spikes of fragrant white flowers in late Summer on upright, slow-growing shrub. Fine for naturalizing. S

18 to 24 in.\$1.25 | 2 to 3 ft.\$1.75

Cornus Mas CORNELIAN CHERRY

Generally first shrub to show color in Spring when twiggy branches are covered in a yellow mist. Cherry-like fruit.

3 to 4 ft.\$3.50

Cotinus Coggygria SMOKE TREE

A "mist" of grayish-purple created by fluffy clusters of flowers from June throughout the Summer, gives this small tree its name. F

3 to 4 ft.\$2.75

Cotinus coggygria purpureus (BRONZE SMOKE TREE). Purple-bronze leaved and purple-bronze plumed form; especially handsome.

2 to 3 ft.\$2.50

Deutzia gracilis SLENDER DEUTZIA

A dwarf variety, with small, white flowers that completely cover it in May. S

15 to 18 in.\$1.50

18 to 24 in.\$2.00

Eleagnus umbellata AUTUMN ELEAGNUS

Fragrant, yellow flowers in May and June; scarlet berries in Fall. An attractive shrub. F

4 to 5 ft.\$3.50

Enkianthus campanulatus

A handsome, large shrub which retains its shape without pruning. Bunches of tiny, red-veined, white, bell-like flowers are borne on whorled branches. Foliage a brilliant red in Fall.

18 to 24 in.\$3.75

2 to 3 ft.5.00

3 to 4 ft.7.50

Euonymus

Euonymus alatus (CORKBARK EUONYMUS). A particularly striking shrub with corky "winged" branches and scarlet foliage and berries in the Fall. F

18 to 24 in.\$1.75

3½ to 4 ft. specimens.6.50

E. alatus compactus (BURNING BUSH). Similar to alatus in that it seems to be on fire because of its brilliant Fall coloring; however, much neater and slower in growth. Wonderful for specimen planting or may be used in the foundation or border for accent.

15 to 18 in.\$1.75 | 3½ to 4 ft.\$6.00

18 to 24 in.2.50 | 4 to 4½ ft.9.00

2½ to 3 ft.3.75 | 4½ to 5 ft.12.00

Exochorda Racemosa PEARLBUSH

Slender, spreading shrub with long clusters of creamy white flowers, appearing pearl-like in the bud. Grows to 10 feet. F

3 to 4 ft.\$2.50

Forsythia

Forsythia intermedia, Spring Glory (PRIMROSE FORSYTHIA). Truly the showiest Forsythia now known. The large, pale yellow flowers are of striking brilliance as Winter fades and Spring first appears. The masses of blooms are so crowded on the stems that the branches bow gracefully under the weight of their colorful burden. F

2 to 3 ft.\$1.25 | 5 to 6 ft. specimens.\$7.50

3 to 4 ft.2.50 | 6 to 7 ft. specimens.10.00

F. intermedia spectabilis (SHOWY BORDER FORSYTHIA). A deeper, yellow form of semi-drooping character with the large flowers in great profusion. Long a favorite and very showy in group plantings.

2 to 3 ft.\$1.00 | 4 to 5 ft., heavy.\$2.50 to \$3.50

3 to 4 ft.1.35 | 5 to 6 ft., ex. heavy.5.00 to 7.50

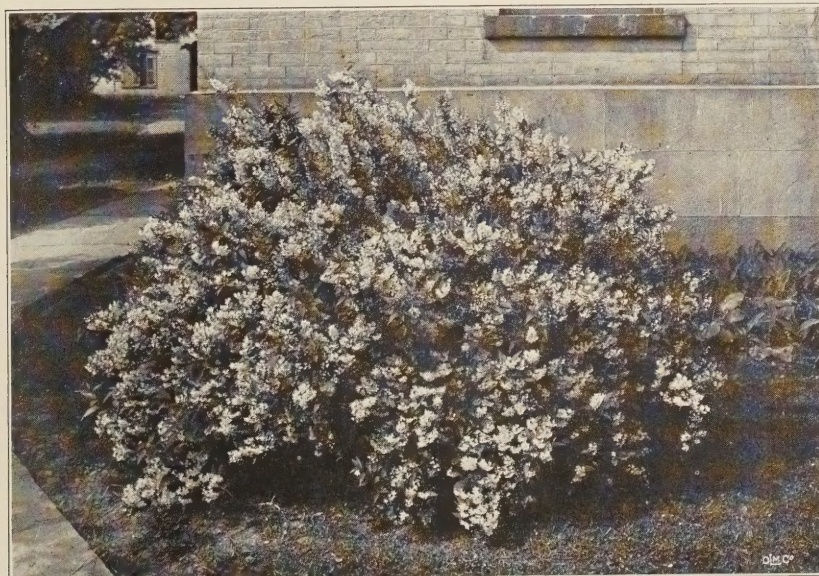

F. Linwood Gold. A splendid new variety which originated in Ireland; very erect growing with branches virtually smothered with golden yellow flowers. Sensational. Limited supply. Each.\$2.50

F. Suspensa (WEeping FORSYTHIA). This delightful form offers sweeping, arching branches to the ground—a fountain of color when in bloom. 2 to 3 ft.\$1.00

Hamamelis vernalis WITCH HAZEL

Irregular spreading shrub with large, oval leaves. Small yellow flowers close to stem in November. Deep shade or full sun. M

3 to 4 ft.\$2.00 | 4 to 5 ft.\$3.00

DEUTZIA GRACILIS

15 to 18 in., \$1.50

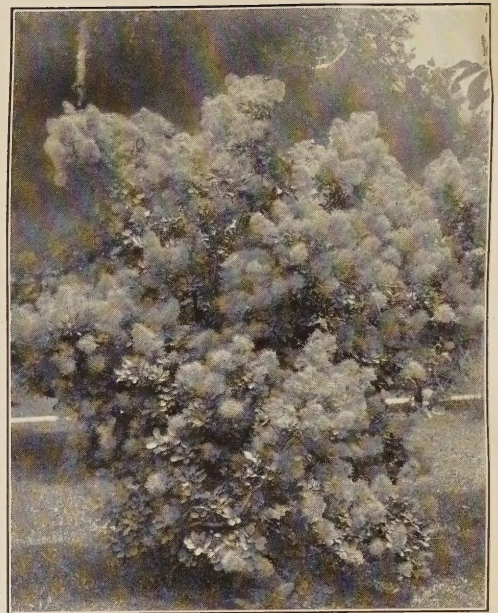

FLOWERING SHRUBS—*Continued*

Hibiscus syriacus • ROSE OF SHARON

A rather erect and tall-growing shrub of neat form. Flowers beginning in August and lasting usually until heavy frosts. Excellent stock. M

| | |
|---|----------------------------|
| Hibiscus syriacus anemonaefflorus. Semi-double white with dark center. | |
| 2 to 3 ft. | \$1.25 |
| H. syriacus, Boule de Feu. Double red. | |
| 2 to 3 ft. | \$1.25 3 to 4 ft. \$2.00 |
| H. syriacus coelestis. Single, blue. Outstanding. | |
| 2 to 3 ft. | \$1.25 3 to 4 ft. \$2.00 |
| H. syriacus, Jeanne d'Arc. Double white. | |
| 2 to 3 ft. | \$1.25 3 to 4 ft. \$2.00 |
| H. syriacus, Lady Stanley. Double, bluish-white, splashed with deep ink. | |
| 2 to 3 ft. | \$1.25 3 to 4 ft. \$2.00 |
| 3 to 4 ft., heavy. | \$2.75 |
| H. syriacus, Lucy. Double lavender. | |
| 2 to 3 ft. | \$1.25 |
| H. syriacus paeoniiflorus (PEONY "ROSE OF SHARON"). Semi-double white with carmine center. | |
| 2 to 3 ft. | \$1.25 |
| H. syriacus totus alba. Finest single white of all. | |
| 2 to 3 ft. | \$1.25 3 to 4 ft. \$2.00 |

Heavy Specimens Priced on Selection

SMOKE TREE (*Cotinus Coggia*)
3 to 4 ft., \$2.75

WHITE ROSE OF SHARON (*Hibiscus totus alba*) 3 to 4 ft., \$2.00

Hydrangea

Hydrangea arborescens (SUMMER HYDRANGEA). Large, pure white blooms in July and August. F

3 to 4 ft. \$2.00

H. macrophylla (GREENHOUSE HYDRANGEA). Bushy growth with pink or blue flowers in profusion, according to acidity of soil. F

5 yr., heavy. \$5.00

H. paniculata grandiflora (PEEGEE HYDRANGEA). The best known Hydrangea with immense, conical, pink and white blooms from July to September. F

2 to 3 ft. \$1.25

3 to 4 ft. 1.75

H. p. grandiflora (PEEGEE TREE FORM). The tree form can stand alone or in groups and need not be supported. Immense blooms weigh the branches down, creating a weeping tree effect. An old-fashioned favorite. F

2 to 3 ft. \$2.00 | 3 to 4 ft. tree. \$2.75

4 to 5 ft. tree, heavy. \$5.00

H. Nikko Blue. Both hardy and beautiful, withstanding temperatures of 20 degrees below. Tops die down in Winter but crowns regrow into bushy shrubs the next season. Luxuriant foliage; masses of blooms.

2 yr. \$2.50

Hypericum

Hypericum Hidecote. Somewhat mounded in form of growth with blue-green foliage. Delightful golden-yellow, Daffodil-like flowers in profusion in Midsummer, the period when shrub blooms are generally few. This new, exciting shrub acclaimed by *Herald Tribune* jury as outstanding new shrub for 1952. S

2 yr., heavy plants. \$1.75

Ilex verticillata • WINTERBERRY

A fine, native shrub with bright red berries practically all Winter. Upright habit with black bark and clean, attractive foliage. Plant in groups for production of berries. M

18 to 24 in. \$1.00 | 4 to 5 ft. \$3.50

2 to 3 ft. 1.50 | 5 to 6 ft. 5.00

3 to 4 ft. 2.25 | 6 to 7 ft. 7.50

Kolkwitzia amabilis • BEAUTYBUSH

A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly. M

2 to 3 ft. \$1.75 | 3 to 4 ft. \$2.50

4 to 5 ft., heavy. \$5.00

Ligustrum • PRIVET FOR HEDGES

Ligustrum amurense (AMUR PRIVET). True, hardy, upright variety with lustrous leaves. Good for quick-growing screen; plants will attain about 15 ft. in height. F

2 to 3 ft. \$4.00 per doz., \$32.50 per 100

L. ovalifolium (CALIFORNIA PRIVET). The form most usually used for hedges. F

18 to 24 in. \$2.50 per doz., \$20.00 per 100

2 to 3 ft. 3.75 per doz., 30.00 per 100

3 to 4 ft. 4.50 per doz., 35.00 per 100

L. regelianum (REGEL PRIVET). A low, spreading form—almost horizontal. S

18 to 24 in. \$0.90 | 2 to 3 ft. \$1.25

TRUE BRIDALWREATH (*Spirea prunifolia*)
2 to 3 ft., \$1.50

FLOWERING SHRUBS—Continued

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

Lindera benzoin • SPICEBUSH

Native shrub with fringed yellow flowers in early Spring. Delicious, aromatic leaves and twigs. F
18 to 24 in. \$1.25

Lonicera • HONEYSUCKLE

Lonicera Korolkowii Zabellii. A shrub of medium growth, bearing abundance of bright red blossoms and bright red fruit. M
2 to 3 ft. \$1.50 | 4 to 5 ft. \$3.50
3 to 4 ft. 2.00 | 5 to 6 ft. \$5.00 to 7.50

Philadelphus • MOCKORANGE

Philadelphus coronarius (SWEET MOCKORANGE). Extremely fragrant variety of Mockorange. White blooms in May and June. F

18 to 24 in. ... \$1.25
2 to 3 ft. 1.50
3 to 4 ft. 2.50
4 to 5 ft. 3.50
5 to 6 ft. 4.00
6 to 7 ft. 5.00

P. Minnesota Snowflake. (Plant Pat. No. 538). This wonderful addition to the Philadelphus family produces a profusion of large, very double, pure white flowers of some fragrance. Truly 'snowy' in effect. Bushy, shapely shrub. M
2 to 3 ft. \$1.75 | 4 to 5 ft. \$3.50
3 to 4 ft. 2.25 | 5 to 6 ft. 5.00
6 to 7 ft. \$7.50

P. virginialis (DOUBLE MOCKORANGE). Fine, double-flowering variety which blooms profusely. Fragrant. M
2 to 3 ft. ... \$1.50
3 to 4 ft. ... 2.00
4 to 5 ft. ... 3.50

Photinia Villosa

CHRISTMAS-BERRY

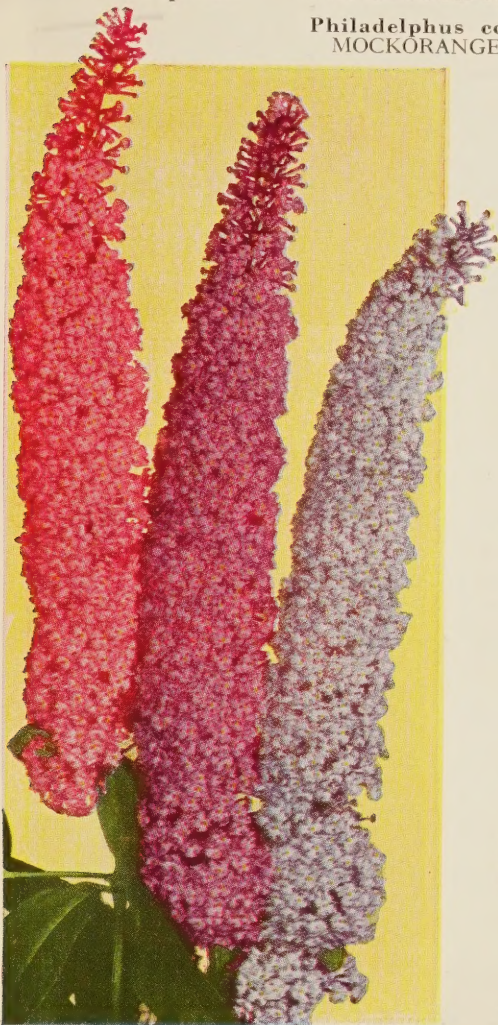

A large, interesting shrub. The glossy foliage turns brilliant red in Fall. Brilliant red berries persist into Winter.
3 to 4 ft. \$2.50

SWEET SHRUB
(Calycanthus floridus)

2 to 3 ft., \$1.25

FORSYTHIA, Lynwood Gold
Each \$2.50

BUDDLEJA (Butterfly Bushes) Each 90c.

Prunus glandulosa FLOWERING ALMOND

Profuse, double rosettes cover bare stems in late April or early May. Deep pink or white. M

2 to 2½ ft. \$1.75
2½ to 3 ft. 2.50
3 to 4 ft., B&B. 3.50

Rhodotypos kerrioides • JETBEAD

Small, shapely shrub bearing white flowers in June and shiny, black, bead-like berries in Fall. Handsome foliage. Good in shade. M
2 to 3 ft. \$1.75

Salix caprea • PUSSY WILLOW

Popular shrub for early Spring effect. Does well in dry as well as wet places. F

3 to 4 ft. \$1.50

FLOWERING SHRUBS—*Cont.*

Syringa • LILACS

We have a quantity of plants much larger than those listed here, and we shall be pleased to receive your inquiries or have you make a personal inspection of them.

Syringa Persica (PERSIAN LILAC). A graceful shrub with slender branches, and single, pale lilac flowers.

2 to 3 ft. \$1.50

S. pothomagensis. A very old hybrid, acquiring considerable spread upon maturity. Red-violet flower trusses.

3 to 4 ft. \$2.75

4 to 5 ft. 4.00

S. vulgaris (COMMON PURPLE LILAC). Considered by many as fine as any hybrid. Bears large clusters of fragrant, purple flowers in May. M

2 to 3 ft. \$1.50

3 to 4 ft. 2.75

4 to 5 ft. 6.00

5 to 6 ft. 10.00

S. vulgaris alba (COMMON WHITE LILAC). Fragrant, single white flowers. M

2 to 3 ft. \$1.50

3 to 4 ft. 2.50

4 to 5 ft. 6.00

5 to 6 ft. 10.00

All ROSEDALE LILACS carry a ball of earth to insure quick starting and real, husky, first year growth. There is no extra charge for this better method of handling.

French Hybrid Lilacs

Almost everyone knows and loves the old-fashioned purple Lilac, but few know how exquisitely lovely the French Hybrids are. They are just as easy to grow and bloom at an earlier age than common Lilac. Flowers are relatively huge and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss.

Here is a list of favorite varieties which are so beautiful and so different that you will want them all either as specimens or in a border planting. M

18 to 24 in., B&B. \$2.75 | 2 to 3 ft., B&B. \$3.50 | 3 to 4 ft., B&B. 5.00

4 to 5 ft.—Specimens, B&B. \$7.50 to \$10.00 | 5 to 6 ft.—Specimens, B&B. \$9.00 to \$12.00

Larger sizes priced on application

Belle de Naney. Double satiny rose. 2 to 3 ft., 4 to 5 ft., 5 to 6 ft.

Capitaine Baltet. Single violet red. 4 to 5 ft.

Charles Joly. Purple-red, one of the best double reds. 18 to 24 in., 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.

Charles X. Single, rich purple-red. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.

Edith Cavell. Double, creamy white. 3 to 4 ft.

Jan Van Tol. Single, pure white. 2 to 3 ft.

CORNELIAN CHERRY
(Cornus Mas)

3 to 4 ft., \$3.50

NEW DOUBLE MOCKORANGE
(Philadelphus, Minnesota Snowflake)

3 to 4 ft., \$2.25

WEIGELA FEEIE 3 to 4 ft., \$2.00

K. Havemeyer. Double blue-violet. 3 to 4 ft.

Leon Gambetta. Double mauve pink. 18 to 24 in., 2 to 3 ft., 4 to 5 ft., 5 to 6 ft., 6 to 7 ft.

Lucie Baltet. Single, coppery-pink. 3 to 4 ft., 6 to 7 ft.

Macrostachya. Single, light pink. 4 to 5 ft.

Marie Le Graye. Single, white. 18 to 24 in., 2 to 3 ft., 3 to 4 ft.

Michel Buchner. Double pale pink. 18 to 24 in.

Mme. F. Morel. Single, lavender. 7 to 8 ft.

Mme. Lemoine. Tall-growing, double white. 18 to 24 in., 2 to 3 ft.

Mme. Stepman. Single, white. 18 to 24 in.

Mrs. Edw. Harding. Double, purplish-red. 3 to 4 ft.

Paul Thirion. Double, claret-rose. 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.

Pres. Grevy. Double, popular blue. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft., 6 to 7 ft.

Pres. Poincare. Double, purple-red. 3 to 4 ft., 4 to 5 ft.

Ruhm Von Horstenstein. Single reddish-purple. 18 to 24 in., 2 to 3 ft.

Souv. de Ludwig Spaeth. Single, reddish-purple. 15 to 18 in., 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.

Limited quantities of other varieties and sizes available at the nurseries

HYPERICUM, HIDCOTE GOLD

2 yr., \$1.75

FLOWERING SHRUBS—Continued

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

ILEX VERTICILLATA 3 to 4 ft., \$2.25

Spiraea • SPIREA

Spiraea Bumalda, Anthony Waterer (DWARF SPIREA). A small, compact shrub with pink flowers in July. M

18 to 24 in. \$1.25 | 2 to 3 ft. \$1.75
3 to 3½ ft. \$2.50

S. prunifolia (TRUE BRIDALWREATH). Long racemes of pure white flowers in May. Small, glossy foliage. M

2 to 3 ft. \$1.50 | 3 to 4 ft. \$2.50
4 to 5 ft. \$4.00

S. Thunbergii (THUNBERG SPIREA). Semi-dwarf, with very fine foliage and small white flowers. Dense. M

2 to 3 ft. \$1.50

S. Vanhouttei (VANHOUTTE SPIREA). Ever-popular with its abundance of small white flower in clusters. F

2 to 3 ft. \$0.95
3 to 4 ft. 1.50
4 to 5 ft. 2.75
5 to 6 ft. 4.00

HYDRANGAEA, PEEGEE (Tree Form)

3 to 4 ft., \$2.75

VIBURNUMS

This group probably offers more desirable varieties for landscape use than any other family of Shrubs. **Viburnum Americanum** (AMERICAN CRANBERRY BUSH). A shrub of rather loose growth particularly desirable for its scarlet berries from early August well into the Winter. Brilliant orange and red Fall foliage. F

3 to 4 ft. \$1.50

V. Burkwoodi (BURKWOOD VIBURNUM). Often called an improved *Viburnum carlesii*—differing in growth, foliage and time of bloom, blooming earlier. Growth is vigorous and foliage glossy. Very fragrant, creamy-white flowers. S

2 to 3 ft. \$7.50 | 3 to 3½ ft. \$9.00

V. Carlesii (FRAGRANT VIBURNUM). Most fragrant of all flowering shrubs. A single blossom will scent an entire room. Fairly dwarf and slow in growth, it eventually attains 5 to 6 ft. in height. Creamy white blooms in considerable profusion. S

12 to 15 in. \$3.50

15 to 18 in., 6 in. pots 4.50

18 to 24 in., 6 in. pots 6.00

2 to 2½ ft. 7.50

V. dentatum (ARROWWOOD). Bushy shrub with white flowers, blue berries. Fine for shade. F

2 to 3 ft. \$1.50

3 to 4 ft. 2.50

4 to 5 ft., B&B 3.50

5 to 6 ft., B&B 5.00

V. dilatatum (LINDEN VIBURNUM). Finest of the Viburnums. White flowers followed by immense clusters of bright red berries making entire shrub appear red. M

2 to 3 ft. \$1.75

3 to 4 ft. 2.75

Heavy Specimens. Priced on Selection

V. tomentosum (SINGLE JAPANESE SNOWBALL). White flowers in profusion followed by red berries; foliage red in Fall. M

2 to 3 ft. \$1.75

3 to 4 ft. 2.75

V. prunifolium (BLACKHAW). Pure white flowers in May and June; blue-black fruits in late Fall. The vivid Fall foliage and the interesting patterns from irregular branching make this most desirable. F

2 to 3 ft. \$1.75

3 to 4 ft. 2.50

V. Sieboldii (SIEBOLD VIBURNUM). Vigorous shrub attaining great size. Pink berries changing to black. Large, deep green, leathery leaves. F

4 to 5 ft., B&B \$5.00

5 to 6 ft., B&B 7.50

V. setigerum (TEA VIBURNUM). Large, compound white flowers followed by huge clusters of bright red berries. Probably most showy of all Viburnums when in berry. M

2 to 3 ft. \$2.00

SWEET PEPPERBUSH (*Clethra alnifolia*)
18 to 24 in., \$1.25

Symphoricarpos • SNOWBERRIES

Symphoricarpos albus laevigatus (SNOWBERRY). Pink flowers and white berries in profusion. Thrives in shade and is excellent for hillsides. F

2 to 3 ft. \$1.25 | 3 to 4 ft. \$2.00

S. Chenaultii (CHENAULT'S CORALBERRY). Pink-berried form of Coralberry. Grows compact and has a better than average foliage. F

3 to 4 ft. \$1.50

S. orbiculatus (CORALBERRY). Bears clusters of small red berries which remain most of the Winter. F

2 to 3 ft. \$0.85 | 3 to 4 ft. \$1.25

Tamarix pentandra TAMARISK

A charming 5 to 7 foot shrub with lace-like, silvery-blue foliage and large clusters of bright pink flowers giving a pink and silver mist effect in July. F

2 to 3 ft. \$1.50

REDLEAF BARBERRY
15 to 18 in., 75c. each

FLOWERING SHRUBS

Continued

Vaccinium corymbosum **HIGHBUSH BLUEBERRY**

A very desirable, bushy shrub with glossy foliage turning brilliant red in Autumn. Creamy-white flowers. M

| | |

| 2 to 3 ft..... | \$3.25 |
| 3 to 4 ft..... | 4.50 |
| 4 to 5 ft..... | 6.00 |

WEIGELA, BRISTOL RUBY 3 to 4 ft., \$2.50

Vitex Agnus-castus latifolia • CHASTE TREE

A graceful shrub with spires of lovely lavender-blue flowers in profusion from July to frost. Dies back in Winter similar to Buddleja. F

| | | | |
|----------------|--------|----------------|--------|
| 2 to 3 ft..... | \$1.25 | 3 to 4 ft..... | \$2.75 |
|----------------|--------|----------------|--------|

AMERICAN CRANBERRYBUSH
(Viburnum Americanum)

3 to 4 ft., \$1.50

Weigela • WEIGELIA

Weigela, Bristol Ruby (An improved form of Eva Rathke). Hardier and more vigorous, developing to a more shapely shrub. Blooms are a soft ruby-red shading to garnet-crimson. F

| | | | |
|----------------|--------|----------------|--------|
| 2 to 3 ft..... | \$2.00 | 4 to 5 ft..... | \$3.50 |
| 3 to 4 ft..... | 2.50 | 5 to 6 ft..... | 5.00 |

W. Feerie. This graceful shrub produces an enormous profusion of most delightful soft pink flowers a week or so earlier than florida. F

| | | | |
|----------------|--------|----------------|--------|
| 2 to 3 ft..... | \$1.50 | 3 to 4 ft..... | \$2.00 |
| 4 to 5 ft..... | | | \$3.00 |

W. floribunda (CRIMSON WEIGELA). Bright crimson flowers on extremely vigorous, and generally large, shrub. F

| | | | |
|----------------|--------|----------------|--------|
| 3 to 4 ft..... | \$2.50 | 4 to 5 ft..... | \$3.50 |
|----------------|--------|----------------|--------|

W. Rosea. Medium growth with rose-colored flowers in June.

| | | | |
|----------------|--------|----------------|--------|
| 2 to 3 ft..... | \$1.50 | 3 to 4 ft..... | \$2.00 |
|----------------|--------|----------------|--------|

W. Vanicekii. Similar to Bristol Ruby. A good bloomer—red flowers.

| | |
|----------------|--------|
| 3 to 4 ft..... | \$1.75 |
|----------------|--------|

FLOWERING QUINCE (Chaenomeles Lagenaria)

18 to 24 in., \$1.25

PLANTING SUGGESTIONS for **BARE ROOT MATERIAL**

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Farmanure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem).
4. Cover roots with soil mixed with liberal amounts of Farmanure, firming soil with feet.
5. Complete filling hole with soil, leaving catch basin effect at top to hold water.
6. Water THOROUGHLY twice a week.

VIBURNUM BURKWOODII

2 to 3 ft., \$7.50

SHADE TREES

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

For Welcome Shade, Beauty, Comfort—Plant Shade Trees

Choose the variety most suitable for your needs—most appealing to your taste. Are you seeking dense, cool shade or light lacy shade? A tall, erect-growing type or a more full-headed type?

We grow only those varieties which will thrive in this climate and we welcome your selection. In addition **ROSEDALE** Shade Trees are grown far enough apart in wide-spaced rows to permit lateral as well as upright growth.

**ALL SHADE TREES ARE BARE ROOT EXCEPT AS MARKED
BALLED AND BURLAPPED (B&B)**

Planting Instructions: Bare Root Material—Please see page 8; B&B Material—Please see page 31

ACER • Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

Acer palmatum atropurpureum (REDLEAVED JAPANESE MAPLE). A comparatively dwarf Maple, slow in growth, and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well-shaped. All B&B. S

| | | | | | |
|-------------------|--------|------------------|---------|------------------|---------|
| 18 to 24 in. | \$6.00 | 2½ to 3 ft. | \$15.00 | 3½ to 4 ft. | \$25.00 |
| 2 to 2½ ft. | 10.00 | 3 to 3½ ft. | 20.00 | 4 to 5 ft. | 35.00 |

A. platanoides (NORWAY MAPLE). Foremost of the Maples because of its regular outline, wide-spreading branches and deep, green foliage which is retained even after the first heavy frosts. Becomes a good shade tree quickly. F

| | | | |
|-----------------------------|---------|-----------------------------|---------|
| 1¼ to 2 in. cal. | \$16.00 | 3½ to 4 in. cal., B&B. | \$65.00 |

Larger specimens priced on selection

SUGAR MAPLE (Acer Saccharum)
2 to 2½ in. cal., \$27.50

SILVER BIRCH (Betula populifolia)
8 to 10 ft., \$15.00

Shade Trees take ten to twelve years to grow and now are extremely scarce. We suggest no delay in ordering as they assume even greater importance in landscaping the modern home.

NORWAY MAPLES IN THE NURSERY 2 to 2½ in. cal., \$22.50

GINKGO

Ginkgo biloba (MAIDENHAIR TREE). One of the oldest things in the world is the Ginkgo tree. With its single straight trunk, and broad, conical head, it is extremely popular. The Ginkgo tolerates unfavorable city conditions and a wide range of soil conditions — withstands wind, and is virtually free from pests. Transplants easily. M

| | |
|-----------------------------|---------|
| 2½ to 3 in. cal., B&B. | \$30.00 |
|-----------------------------|---------|

GLEDITSIA • Honeylocust

Gleditsia triacanthos inermis (THORNLESS HONEYLOCUST).

A truly, lovely tree spreading like a canopy of lace-like foliage. Free from insect pests, hardy, and long lived. Not entirely free from thorns, but many less than older form. Something different in a shade tree, with its light, airy grade. F

| | |
|-----------------------------|---------|
| 2½ to 3 in. cal. | \$27.50 |
| 3 to 3½ in. cal. | 50.00 |
| 3½ to 4 in. cal., B&B. | 65.00 |
| 4 to 4½ in. cal., B&B. | 85.00 |

GYMNOCLADUS DIOICA • Kentucky Coffee Tree

A handsome, and picturesque tree of easy culture. Glossy, green leaves with inconspicuous greenish-white hanging clusters of flowers, followed by long, attractive pods.

2 to 2½ in. cal.\$22.50 | 2½ to 3 in. cal.\$27.50

LIQUIDAMBAR • Sweet Gum

Liquidambar styraciflua (SWEET GUM). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. Star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects. All

B&B. S 2½ to 3 in. cal.\$35.00 | 3 to 3½ in. cal.\$50.00

PLATANUS • Plane

Platanus occidentalis (AMERICAN PLANE, BUTTONBALL or SYCAMORE). This grand, native American tree attains great size and spread with open-branching, and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it for a rapid-growing shade tree in well-drained soil. F

2 to 2½ in. cal.\$22.50 | 3 to 3½ in. cal., B&B.\$50.00
2½ to 3 in. cal.27.50 | 3½ to 4 in. cal., B&B.65.00
4 to 4½ in. cal., B&B.\$85.00

AMERICAN PLANE (*Platanus occ.*)
2 to 2½ in. cal., \$22.50

POPULUS • Poplar

Populus italica nigra (LOMBARDY POPLAR).

The slender, upright form of growth makes these trees especially desirable for road plantings, property borders or along a stream. Quick-growing, they make a good screen when planted close together. The soft patter of the leaves as the Summer breeze ripples through them makes the Lombardy Poplar especially delightful. F

6 to 8 ft.\$3.50

QUERCUS • Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their yearly growth equals that of almost any other species.

Quercus palustris (PIN OAK). A superb tree, distinct in its character. The Pin Oak's graceful drooping branches support a mass of deeply lobed, sharply pointed leaves. Deep red in Fall. M

1 to 1½ in. cal.\$10.00
1½ to 2 in. cal., B&B.20.00
2 to 2½ in. cal., B&B.27.50
2½ to 3 in. cal., B&B.45.00
3 to 3½ in. cal., B&B.60.00

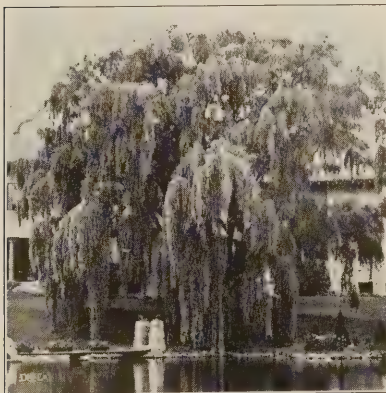

SALIX • Willow

Salix babylonica (WEeping WILLOW). Long, stringy branches droop vertically to the ground and with the narrow, light green leaves create a soft, velvety texture. Grows rapidly especially when close to water. Makes a beautiful screening where needed in low, moist locations. F

5 to 6 ft.\$3.75 | 6 to 8 ft.\$6.00
8 to 10 ft., B&B.\$7.50

S. b. Niobe (GOLDEN TWIG WEeping WILLOW). F

5 to 6 ft.\$3.75 | 8 to 10 ft., B&B.\$7.50
10 to 12 ft., B&B.\$10.00

WEeping WILLOW (*Salix babylonica*)
6 to 8 ft., \$6.00

THE NEW MORAIN LOCUST (Plant Pat. No. 836)

A beautiful, new form of Locust—both thornless and seedless. This vigorous tree grows rapidly, creating light, airy shade quickly. Outstandingly hardy, but prefers sunny, exposed situations.

A most desirable addition to our Shade Tree varieties.

5 to 6 ft.\$6.00 | 6 to 8 ft.\$10.00 | 8 to 10 ft.\$15.00 | 10 to 12 ft.\$20.00

TILIA • Linden

Tilia tomentosa (SILVER-LEAVED LINDEN). Our best form of Linden, having clear, silvery foliage, not readily affected by aphids or beetles. Very desirable tree. M

3 to 3½ in. cal., B&B.\$50.00 | 3½ to 4 in. cal., B&B.\$65.00
4½ to 5 in. cal., B&B.\$110.00

FLOWERING TREES

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

The loveliness of a Flowering Tree is a constant delight! At the height of the blooming period; when in full leaf; when fruiting, as so many Flowering Trees do; and during the brilliance of Autumnal coloring, they are always an exceptionally fine addition to the landscape. A solid investment on the part of the homeowner, for they increase in beauty and value as years pass.

All the varieties listed below are hardy and carefully chosen to give complete satisfaction, no matter whether planted as lawn specimens or in the border or planted among evergreens.

We welcome you to make a selection at the nursery.

ALL FLOWERING TREES ARE BALLED AND BURLAPPED (B&B) EXCEPT AS MARKED BARE ROOT (BR)

For planting instructions, please see page 31 for B&B material and page 8 for BR material

Cercis canadensis **REDBUD or JUDAS TREE**

A large, shrub-like tree bearing myriads of brilliant purple-pink flowers in April before the leaves appear. Picturesque in form and a colorful delight in the early Spring landscape. Suitable in the shrub border or planted as a specimen. We offer the following fine stock for early transplanting. M

5 to 6 ft. hgt., BR.....\$5.00 | Heavy specimens priced on selection

Cornus • DOGWOOD

Cornus florida (WHITE DOGWOOD). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. Foliage turns brilliant red in Autumn. Red berries. M

| | |
|---------------------------|------------------------------------|

(Sorbus Aucuparia)
5 to 6 ft. hgt.
BR
\$3.75

MAGNOLIA Soulangiana (Saucer Magnolia)
2 to 3 ft. hgt., \$7.50

Franklinia alatamaha FRANKLIN TREE or GORDONIA

A small tree for extraordinary beauty in the Fall. Attaining 20 feet in height, the graceful branches sweep the ground if allowed natural growth. If the lower branches are removed, the trunk appears smooth, silky and grey. The marble-like buds open about September first to large, creamy white flowers with deep, orange-yellow centers. While still flowering, the shiny green leaves take on the brilliant crimson and scarlet Fall coloring, a strikingly beautiful sight.

The Franklin Tree prefers full sun, and a somewhat moist, but well drained soil near lake, pool or stream. M

| | |
|-----------------|--------|
| 2 to 3 ft. hgt. | \$4.50 |
|-----------------|--------|

TEA CRAB (Malus hupehensis)

| 8 to 10 ft. hgt., B&B..... | 25.00 |

M. Arnoldiana (ARNOLD CRAB). Semi-double pink flowers opening to white. Yellow fruit. Makes a dense mound of shrub-like growth. M
4 to 5 ft. hgt.....\$6.00 | 5 to 6 ft. hgt., B&B.....\$12.00

M. atrosanguinea (CARMINE CRAB). Single crimson flowers in great profusion. Low-headed tree, spreading habit with slightly twisted branches. M
4 to 5 ft. hgt.....\$9.00 | 6 to 7 ft., heavy.....\$25.00
5 to 6 ft. hgt.....\$12.00 to 15.00 | 7 to 8 ft.....35.00

FLORIBUNDA CRAB (*Malus floribunda*)

MAGNOLIA

Magnolia Soulangeana (SAUCER MAGNOLIA). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves. M

| | |
|---------------------|--------|
| 2 to 3 ft. hgt..... | \$7.50 |
| 3 to 4 ft. hgt..... | 10.00 |
| 4 to 5 ft. hgt..... | 15.00 |
| 5 to 6 ft. hgt..... | 20.00 |
| 6 to 7 ft. hgt..... | 30.00 |

M. Soulangeana Alba Superba. Similar to Soulangeana but with larger flowers almost white. More upright grower with rounder leaves. M

| | |
|---------------------|---------|
| 3 to 4 ft. hgt..... | \$10.00 |
|---------------------|---------|

M. stellata (STAR MAGNOLIA). Small, broad, rounding habit with star-shaped flowers of pure dazzling white. Hardest and finest of all. S

| | |
|-----------------------|------------------|
| 18 to 24 in. hgt..... | \$4.75 |
| 2 to 3 ft. hgt..... | 9.00 |
| 3 to 4 ft. hgt..... | 15.00 |
| 4 to 5 ft. hgt..... | 25.00 |
| 5 to 6 ft. hgt..... | \$30.00 to 35.00 |
| 6 to 7 ft. hgt..... | 40.00 to 45.00 |

M. stellata Rosea (PINK STAR MAGNOLIA). Same as stellata except for dainty rose-pink flowers.

| | |
|---------------------|---------|
| 3 to 4 ft. hgt..... | \$15.00 |
| 4 to 5 ft. hgt..... | 25.00 |
| 5 to 6 ft. hgt..... | 35.00 |
| 6 to 7 ft. hgt..... | 45.00 |

SARGENT'S CRAB (*Malus Sargentii*)

3 to 4 ft. spr., heavy, \$10.00

✓ **Malus Baccata (SIBERIAN CRAB).** Largest and first to bloom—usually at same time as Japanese Cherries. Pure white blossoms. Yellow fruit dappled with red. Upright. M

| | |
|--------------------------|--------|
| 5 to 6 ft. hgt., BR..... | \$5.00 |
|--------------------------|--------|

✓ **M. Eleyi (ELEY CRAB).** A mass of crimson blooms; bronzy foliage turning bright red in Fall. Heavily laden with bunches of shining crimson fruit. M

| | |
|----------------------|---------|
| 7 to 8 ft. hgt..... | \$15.00 |
| 8 to 10 ft. hgt..... | 25.00 |

M. floribunda. A single rose-pink variety bearing an abundance of fruit even when young. Very attractive to birds. Vigorous grower. M

| | |
|---------------------|--------|
| 3 to 4 ft. hgt..... | \$6.00 |
| 4 to 5 ft. hgt..... | \$7.50 |

M. hupehensis (TEA CRAB). Irregular, spreading in habit; completely covered with flowers. Red buds open to single pink blooms; red fruit. Tree effect in bloom is Apple-like. A favorite. F

| | |
|--------------------------|--------|
| 3 to 4 ft. hgt., BR..... | \$3.75 |
| 5 to 6 ft. hgt..... | 7.50 |

M. ioensis plena (BECHTEL'S CRAB). A vigorous, shapely tree with double pink flowers exactly like miniature Roses and of delightful, rose-like fragrance. S

| | |
|---------------------------|--------|
| 4 to 5 ft. hgt., BR..... | \$5.00 |
| 4 to 5 ft. hgt., B&B..... | 7.50 |
| 5 to 6 ft. hgt..... | 10.00 |

3 to 4 ft. hgt., \$6.00

FLOWERING TREES—Continued

Malus micromalus (MIDGET CRAB). A fine, upright type with deep pink flower and yellow fruit. M
4 to 5 ft. hgt. \$7.50
5 to 6 ft. hgt. 10.00

M. purpurea (PURPLE-LEAF CRAB). Brilliant foliage of rich reddish-purple. Single, deep red flowers and red fruit in clusters. M
5 to 6 ft. hgt. \$5.00
6 to 7 ft. hgt. 10.00

M. Sargentii (SARGENT'S CRAB). A dwarf, bushy, hardy variety. Sparkling white flowers and an abundance of small, red fruit clinging till Spring. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background. S
3 to 4 ft. spr., heavy \$10.00
4 to 5 ft. spr. 17.50
5 to 6 ft. spr. 25.00

M. Scheideckeri (SCHEIDECKER'S CRAB). Very early, double bright pink blossoms. Bears waxy, yellow, fruit-like cherries. Distinctly upright. Slender. M
4 to 5 ft. hgt., BR. \$3.75
5 to 6 ft. hgt. 9.00
6 to 7 ft. hgt. 12.00

M. Spectabilis (CHINESE CRAB). A shapely tree, with good, shiny foliage, and fragrant, semi-double, delicate pink flowers. Pale yellow fruit. M
4 to 5 ft. hgt., BR. \$3.75
4 to 5 ft. hgt. 5.00
6 to 7 ft. hgt. 12.00

Oxydendrum arboreum SORREL TREE

A comparatively dwarf tree bearing an abundance of white flowers in Midsummer with foliage several shades of red and crimson in Fall. Seldom seen in the Fall without being admired. M

MAGNIFICENT ROSEDALE ROSES

To Bring You Color, Beauty, Restful Pleasure

ALL ARE HARDY VARIETIES—ESPECIALLY SELECTED FOR WESTCHESTER SOILS AND CLIMATIC CONDITION

Plant ROSEDALE ROSES with Confidence—All Plants Are Well-rooted and Well-budded

Planting Instructions—Select well-drained soil; dig the hole large enough to accept roots easily; fill in half of the soil and tamp down; water thoroughly; fill in balance of soil, mixed with liberal quantity of Farmanure or Agrico Rose Food, heaping soil in 6-inch mound around plant. Level this mound when growth starts. It is really very simple—even for the most timid beginner. We suggest April planting but you may order early, and shipment will be made at the proper time. Outside our delivery area, dormant Roses are shipped by parcel post at our expense.

Everblooming HYBRID TEA ROSES

Continuous Blooms in Profusion from June to Fall—Selected, 2-Year-Old Stock—Field-grown, No. 1 Grade

\$1.35 each Three or more \$1.20 each,
12 for \$12.00

Add 50c. each for Potted Roses later in the season

Caledonia. Large, WHITE, very double. Hardy. Striking.

Christopher Stone. Velvety SCARLET-CRIMSON. Very fragrant; very effective.

Condesa de Sastago. Coppery PINK TWO-TONE with golden tint. Raspberry fragrance.

Dame Edith Helen. A glorious, glowing PINK. Large, full, intensely fragrant

Duquesa de Penaranda. BI-COLOR COPPER-APRICOT. Long-stemmed and very fragrant. Handsome.

Edith Nellie Perkins. TWO-TONE. Salmon-pink inside, coppery-pink outside. Large, profuse blooms.

Frau Karl Druschki. SNOW-WHITE. Very large, double, open. Scentless.

K. A. Viktoria. PEARL-WHITE, lemon-yellow center. Very fragrant. Fine for accent.

Mrs. E. P. Thom. Deep CANARY-YELLOW. Unfading; fragrant. Beautiful form.

Pink Dawn. Deep ROSE-PINK opening to bright pink. Fragrant. Vigorous grower.

Poinsettia. Most brilliant RED. Rich, velvety, long lasting. Fragrant.

Pres. Hoover. BI-COLOR. Large flowered in a blend of scarlet, orange, yellow and pink. Semi-double; fruity fragrance; abundant bloom.

Snowbird. WHITE, creamy center. Double, high centered. Very fragrant.

Soeur Therese. GOLDEN YELLOW, with carmine-tipped petals. Very large, semi-double.

Specially Selected Patented HYBRID TEA ROSES

Each year we carefully study the stock of Patented Hybrid Tea Roses available and select the choicest ones to assure you, as best we can, of obtaining real pleasure from your Roses.

These particular varieties are notable for their exceptionally fine characteristics—beautiful form, dependable hardiness, outstanding vigor, delightful fragrances or wonderful colors. Make any selection you may wish—all are excellent both in quality of bloom and in health and cleanliness of stock. You will love your Rosedale Rose Garden.

Charlotte Armstrong (Plant Pat. No. 455). Long, slender, cerise buds open to magnificent blooms; moderately fragrant; luxurious foliage. An outstanding favorite since 1941. \$2.00 each, three or more \$1.75 each.

Crimson Glory (Plant Pat. No. 105). See page 15. \$1.75 each, three or more \$1.50 each.

Chrysler Imperial (Plant Pat. Applied For). See page 15. \$3.00 each, three or more \$2.65 each.

Forty-Niner (Plant Pat. No. 792). The most brilliant of all bicolored Roses; inside of petals is vivid red with outside chrome yellow. Mildly fragrant. \$2.00 each, three or more \$2.00 each.

Fred Howard (Plant Pat. No. 1006). This All-America Winner for 1952 offers long, rich yellow buds, edged with enchanting delicate pink, opening to huge, fully double, buff yellow blooms. Particularly beautiful when fully open. Of robust vigor. \$2.50 each, three or more \$2.20 each.

Golden Scepter (Plant Pat. No. 910). See page 15. \$2.50 each, three or more \$2.20 each.

Helen Traubel (Plant Pat. No. 1028). See page 15. \$2.75 each, three or more \$2.40 each.

Lowell Thomas (Plant Pat. No. 595). Clear, canary-yellow blooms on robust growth—a very fine yellow Rose. 1944 All-America Winner. \$2.00 each, three or more \$1.75 each.

Mirandy (Plant Pat. No. 632). Huge, full blooms of dark glowing red—top All-America Winner, 1945; penetrating fragrance. \$2.00 each, three or more \$1.75 each.

Mme. Cochet-Cochet (Plant Pat. No. 129). Very large, semi-double blooms of coppery-pink. Honey-like fragrance. \$1.50 each, three or more \$1.30 each.

New Yorker (Plant Pat. No. 823). Fiery red blooms on long, stiff stems. Very fragrant. Exciting color—wonderful accent. \$2.00 each, three or more \$1.75 each.

Nocturne (Plant Pat. No. 713). One of the finest reds, cardinal red with crimson shadings. All-America Award Winner, 1948. Longest, streamlined buds. \$2.00 each, three or more \$1.75 each.

Peace (Plant Pat. No. 591). Rich, warm yellow-ivory tones blend with delicate pink tints in these unusually large, long-lasting blooms. One of the finest Roses ever produced; sole All-America Winner 1946. \$2.50 each, three or more \$2.20 each.

Show Girl (Plant Pat. No. 646). See page 15. \$1.75 each, three or more \$1.50 each.

Sutter's Gold (Plant Pat. No. 885). Golden yellow shaded with red. First American Rose to win top national (All-America Award) and International Awards (Bagatelle Gold Medal and Geneva Gold Medal). Exquisite. \$2.25 each, three or more \$2.00 each.

FLORIBUNDA ROSES

(THE SHRUB TYPE OF ROSE)

Floribunda Roses are noted for their full bushiness and their great profusion of continuous blooms. Truly everblooming and especially effective for border and hedges.

Plant them 2 to 3 feet apart.

We list here a selected group of Floribundas giving you the colors to aid in making your choice:

Betty Prior (Plant Pat. No. 340). Pink, very fragrant. Best for mass planting. \$1.50 each, three or more \$1.30 each.

Donald Prior (Plant Pat. No. 377). Bright red; free flowering. \$1.50 each, three or more \$1.30 each.

Fashion (Plant Pat. No. 789). Exquisite coral-pink suffused with gold; enchanting fragrance. \$2.00 each, three or more \$1.75 each.

Floradora. Brilliant vermilion; prolific and continuous. \$1.50 each, three or more \$1.30 each.

Goldilocks (Plant Pat. No. 672). Rich, clear, golden yellow of Sweetheart Rose" type. \$1.50 each, three or more \$1.30 each.

Ma Perkins (Plant Pat. Applied For). See page 15. \$2.25 each, three or more \$2.00 each.

Pink Bountiful (Plant Pat. No. 601). Soft, glowing pink in unusual profusion; hence the name. \$1.50 each, three or more \$1.30 each.

Pinocchio (Plant Pat. No. 484). Tiny, salmon-pink blooms. Dwarf, bushy. \$1.50 each, three or more \$1.30 each.

Red Pinocchio (Plant Pat. No. 812). Glowing velvety carmine. Exceptionally profuse. \$1.50 each, three or more \$1.30 each.

Summer Snow (Plant Pat. No. 416). Beautiful, large white clusters in countless numbers. \$1.50 each, three or more \$1.30 each.

Vogue (Plant Pat. No. 926). Lovely little flame-red buds, flared slightly at the end, become a mass of cherry-coral blooms—a wonderful display. Delightful spicy fragrance. 1952 All-America Winner. \$2.25 each, three or more \$2.00 each.

World's Fair (Plant Pat. No. 362). Dark, velvety maroon blooms virtually hide this bushy plant. \$1.50 each, three or more \$1.30 each.

Vigorous CLIMBING ROSES

with abundant blooms

A constant source of enjoyment on the home grounds. Plant on walls, fences or trellises. Plant 4 feet apart. These Rosedale Climbing Roses require little care.

Blaze. The overwhelmingly popular scarlet climber. Vivid, double flowers. Plant takes on everblooming qualities as it matures. \$1.50 each, three or more \$1.25 each.

Doublblooms (Plant Pat. No. 152). Huge, double, golden yellow flowers in clusters. Fragrant, profuse intermittent bloom. \$2.00 each, three or more \$1.75 each.

Dr. J. H. Nicolas. Cupped, rose-pink blooms in clusters; flowers almost 6 in. in diameter! Very fragrant. \$2.00 each, three or more \$1.75 each.

High Noon (Plant Pat. No. 704). Intense, clear unfading yellow; long-stemmed perfect buds. Everblooming, producing all season. All-America Winner. \$2.25 each, three or more \$2.00 each.

Mary Wallace. Delightful pink flowers with luminous sheen. Semi-double. Very large blooms; fragrant; a great favorite, long established. \$1.35 each, three or more \$1.20 each.

New Dawn. Delicate pink blooms in great profusion all Summer into late Fall. One of the hardiest climbers. \$1.75 each, three or more \$1.50 each.

Paul's Scarlet. Intensely red flowers borne in loose climbers. The most popular red Climber until the advent of Blaze. \$1.35 each, three or more \$1.20 each.

Silver Moon. Big, saucer-shaped moon-white flowers with brilliant yellow centers. Handsome foliage. \$1.35 each, three or more \$1.20 each.

Rosedale's TREE ROSES for Colorful Dignity

There is nothing to equal the Tree Rose to add an accent point to your Rose Garden. Budded on sturdy stock, they bloom abundantly from June through frost giving both beauty and distinction.

Your Favorite HYBRID TEA ROSES in Tree-Form:

Charlotte Armstrong (No. 455). Cerise
Crimson Glory (No. 105). Velvety crimson
Helen Traubel (No. 1028). Pink
K. A. Viktoria. White
Show Girl. Pink
Soeur Therese. Yellow
Sutter's Gold. Red-Gold

And the Queen of the Floribundas

Fashion (No. 789). Coral pink with gold

All varieties of Tree Roses, \$5.00 each

MULTIFLORA ROSES

Useful on the very large estate where a thorny barrier is desired. When planted in a row become a high and wide hedge. We advise against using these on the small home grounds.

12 to 18 inch heavy rooted plants

25 for \$2.75 100 for \$9.95 250 for \$22.50

EVERGREEN SHRUBS

(BROADLEAVED EVERGREENS)

This group of "double-duty" plants—evergreen qualities and beautiful flowers—offers the wise buyer more satisfaction during all seasons of the year than any other single group of plants.

Increasing numbers of these Evergreen Shrubs are used each year to provide colorful as well as evergreen effects in the well-planned landscape planting.

We have an unusually fine selection of these flowering broad-leaved evergreens and urge you to come to the nurseries to make a selection.

ALL BROADLEAVED EVERGREENS ARE B&B

For Planting Instructions, Please See Page 31

Abelia grandiflora • GLOSSY ABELIA

A splendid half-evergreen shrub bearing dainty, bell shaped pink flowers July until frost. Glossy foliage will persist all Winter in a protected spot. M
4 in. pots.....\$1.50 | 2 to 3 ft. hgt.....\$3.50

AZALEAS

Azalea amoena (Evergreen). Small, boxlike leaves on a neat, compact plant of rounded form. Covered with rosy-purple flowers in Spring. Leaves warm bronze hue in Winter. Very hardy. S

| | |
|-----------------------|--------|
| 12 to 15 in. spr..... | \$4.00 |
| 15 to 18 in. spr..... | 5.00 |
| 18 to 24 in. spr..... | 7.50 |
| 5 to 6 ft. spr..... | 45.00 |

A. hinodegiri (Evergreen). Probably the best of the Evergreen Azaleas for color, foliage, and form. A low, compact plant with handsome, waxy foliage turning bronze in Winter. The flowers are clear, fine red, borne in great profusion in May. May need some Winter protection in exposed locations or north of the nurseries. Our stock is thick and compact, and loaded with flower buds. S

| | |

| 15 to 18 in. spr..... | \$4.25 |
| 18 to 24 in. spr..... | \$5.25 |

DECIDUOUS AZALEAS

For convenience we list here other varieties of Azaleas which although not evergreen are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendrons with the lighter, more delicate, deciduous foliage.

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms usually in mid-June; delightful fragrance. A most desirable variety for mass plantings of native material. M

| 2 to 2½ ft. hgt. | 4.75 |
| 2½ to 3 ft. hgt. | 6.00 |

Larger Sizes Available—Priced on Selection

KALMIA LATIFOLIA (Mountain Laurel)

2 to 2½ ft. hgt., \$4.75

AZALEA INDICA ALBA

18 to 24 in. spr., \$7.50

SHRUBS—Continued

COTONEASTERS

Cotoneasters are of high value for landscape plantings; vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit for decorative effect. They do not transplant as readily as some shrubs and must be handled carefully during the transplanting operation. However, in an open situation, they generally prove to be very hardy throughout northern United States. The interesting branching habits, both the low, sprawly types and those with arching branches, are decorative all year.

Cotoneaster Franchetti (FRANCHET COTONEASTER). Upright, dense shrub with wide spreading branches. Small pink flowers in June with a tremendous crop of orange berries in September. Foliage gray-green. F 15 to 18 in. hgt. . . . \$4.25 | 18 to 24 in. hgt. . . . \$5.25

C. Henryana (HENRY COTONEASTER). A graceful shrub of drooping habit with reddish foliage. Bears an abundance of red-berried clusters in Fall. Fine for a slope. 15 to 18 in. hgt., 6 in. pots. . . . \$4.25

C. Horizontalis (ROCK COTONEASTER). A creeping form with very low, almost horizontal branches bearing a profusion of bright red berries. Especially effective fruiting variety for the rockery. 12 to 15 in. spr. . . . \$2.75 | 15 to 18 in. spr. . . . \$3.50
18 to 24 in. spr. . . . \$5.00

RHODODENDRON HYBRIDS
Roseum Elegans 15 to 18 in., \$10.00

Ilex • THE HOLLIES

Our imaginations are stirred by the familiar sight of a full-grown Holly tree aglow with red berries because of its association with Christmas spirit and cheer. However, only one of this group looks anything like the Christmas Holly. They differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

Ilex crenata (JAPANESE HOLLY). A rapid-growing, dense evergreen bush with deep green, boxwood-like foliage. A beautiful and permanent plant of real character. F 18 to 24 in. hgt. . . . \$7.50 | 2½ to 3 ft. hgt. . . . \$12.00 | 3 to 3½ ft. hgt. . . . \$15.00

I. c. convexa (BOXLEAF HOLLY). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather. M 12 to 15 in. spr. . . . \$4.25 | 15 to 18 in. spr. . . . \$6.00 | 18 to 24 in. spr. . . . \$7.50 | 2 to 2½ ft. spr. . . . \$9.00

I. c. Green Island (Plant Pat. No. 817). Improved boxleaf Holly with broader foliage of deepest glossy green; hardy, dependable. Growth is moderate, form is low mounded. An ideal evergreen for modern planting. M 12 to 15 in. spr. . . . \$4.50 | 15 to 18 in. spr. . . . \$6.25 | 18 to 24 in. spr. . . . \$8.50

ILEX crenata Stokes (STOKES HOLLY). (Plant Pat. No. 887.) A new dwarf, very slow-growing Holly of exceptional merit. Especially good for edgings, rock gardens, foundations as it does not outgrow its location. Unusually hardy. This wonderful plant has been acclaimed by the *Herald Tribune* Plant Jury as outstanding for 1952. S 6 to 8 in. spr. . . . \$1.75 | 8 to 10 in. spr. . . . \$3.25 | 10 to 12 in. spr. . . . \$4.00

I. c. rotundifolia (ROUNDEAF HOLLY). Compact, evergreen shrub with shiny green foliage and black berries. An outstanding variety which is real hardy in Westchester. M 18 to 24 in. hgt. . . \$6.00
2 to 2½ ft. hgt. . . 7.50
2½ to 3 ft. hgt. . . 9.00

GREEN ISLAND HOLLY 12 to 15 in. spr., \$4.50

JAPANESE ANDROMEDA
18 to 24 in. hgt., \$5.00

I. glabra (INKBERRY). Bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in Fall. Useful for shady and moist locations. M 18 to 24 in. hgt. . . \$5.00

I. opaca (AMERICAN HOLLY). Well-known Christmas Holly with red berries. Grows to a large tree but may be sheared to a dense bush. Both male and female plants should be planted. We believe we have one of the finest collections of American Holly available and all plants have been trained and transplanted frequently.

2 to 3 ft. hgt. . . \$6.50
2 to 3 ft. hgt. cans. . . . 7.50
3 to 4 ft. hgt. . . . 9.50
4 to 5 ft. hgt. . . . 12.00
5 to 6 ft. hgt. . . . 20.00
6 to 7 ft. hgt. . . . \$25.00 to 35.00
7 to 8 ft. hgt. . . . 35.00 to 45.00

PYRACANTHA
2 to 3 ft. hgt., \$6.00

AMERICAN HOLLY

2 to 3 ft. hgt., \$6.50

Leucothoe catesbaei • DROOPING LEUCOTHOE

Beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks and the cutting improves the plant. M

| | | | |
|-----------------------|--------|-----------------------|--------|
| 15 to 18 in. spr..... | \$4.50 | 18 to 24 in. spr..... | \$6.00 |
| 2 to 2½ ft. spr..... | | | \$7.50 |

Pieris • ANDROMEDA

Pieris floribunda (AMERICAN ANDROMEDA). Hardy, Laurel-like leaved plant of tremendous value in a broadleaf planting. Flowers are tiny and bell-shaped, growing in showy, upright clusters. Very much in demand for its habit of lateral growth into a handsome mound of rich green retained all Winter. M

15 to 18 in. spr.....\$5.50

P. Japonica (JAPANESE ANDROMEDA). Foliage and general form similar to floribunda. This handsome plant with its glossy leaves in various shades, however, bears its lovely white flowers in sprays of Lily-of-the-Valley-like clusters in very early Spring. M

| | | | |
|-----------------------|--------|------------------------------|--------------------|

| | | 3 to 3½ ft. hgt., heavy..... | \$15.00 to \$20.00 |

Pyracantha coccinea Lalandii • FIRETHORN

This very popular semi-evergreen shrub has strong, slender branches from the ground with stubby side growths bearing innumerable orange-red berries; amazingly beautiful in Fall; very good effects when espaliered.

| | | | |
|------------------------|--------|----------------------------|--------|
| 6 in. pots..... | \$2.75 | 2 to 3 ft. hgt..... | \$6.00 |
| 18 to 24 in. cans..... | 4.00 | 2 to 3 ft. hgt., cans..... | 7.50 |
| | | 3 to 4 ft. hgt..... | \$9.00 |

RHODODENDRONS

RHODODENDRONS require little care after they become established, except possibly, some judicious pruning to keep them full and bushy, and yet they yield the loveliest flowers in early June or late May. They grow best in a light, somewhat acid soil, which is moist but well-drained. (They dislike "wet feet.") They do well in shade or partial sun and sometimes, unless protected in Winter, they may suffer some burning in windy areas.

Rhododendron carolinianum (CAROLINA RHODODENDRON).

A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft rose-pink bloom. A great favorite. S

RHODODENDRON HYBRIDS—Continued

Catawbiense Grandiflorum. Violet-rose, a real Rhododendron color. Exceptionally vigorous. A fine midseason variety. C D E F G

Charles Dickens. Gorgeous shade of dark rich crimson. Handsome and very hardy. B

Dr. H. C. Dresselhuys. Glittering crimson blooms of unusual size. One of the best reds and one of the best hybrids. Midseason. A B

Edward S. Rand. Bright red flowers with a dark eye. Good foliage, low-growing. A favorite. A B

H. W. Sargent. Fine bright red with enormous trusses. Good as specimen. A C

Ignatius Sargent. Light clear red, exceptionally large trusses. Vigorous and rapid-growing. Long a favorite. Late. A E

Lee's Dark Purple. Deep rich purple. Hardy, slower growing variety. Late. E F G

Mrs. C. S. Sargent. Deep glowing pink; good foliage. Very hardy. A B C

Mrs. P. Den Ouden. A beautiful new red variety. Hardy. Midseason. C

Old Port. Wine-red. Low-growing and very hardy. A distinctive variety useful in landscape. A

Roseum Elegans. A brilliant rose-pink. Handsome foliage. Vigorous and hardy—an altogether outstanding Hybrid. Midseason. A B E

Vanderhoop. A crimson-red. Hardy. Late. D E F

RHODODENDRON HYBRIDS

These well-budded plants are offered in an unusually select list of varieties, and it is through these named varieties or hybrids—that is, grafted stock—that the gorgeous array of colors in Rhododendrons in June are obtained. Hybrids are noted, too, for their superior foliage.

Our Hybrid Rhododendrons are the healthiest we have ever had and we offer only those varieties which are hardy in this area. M

Sizes available are indicated by the letters as shown:

| | | | |
|---------------------|--------|--------------------|---------|
| 12 to 15 in.—A..... | \$6.75 | 2 to 2½ ft.—D..... | \$15.00 |
| 15 to 18 in.—B..... | 10.00 | 2½ to 3 ft.—E..... | 20.00 |
| 18 to 24 in.—C..... | 12.50 | 3 to 3½ ft.—F..... | 35.00 |
| | | 3½ to 4 ft.—G..... | \$45.00 |

America. Unusually large clear red flowers. Very hardy. Midseason. A

Amphion. Clear glistening pink with white centers. Enormous trusses and excellent foliage. One of the best. A B C

Boule de Neige. Snowy-white blooms in large clusters. Dwarf, mounded habit. Exceptionally hardy. B

Caractacus. A fine, rich purple-crimson flower of well-known variety. Blooms late. A B C D

Catawbiense Album. Large blush blooms changing to purest white. A hardy, compact variety. Late. A B

LEUCOTHOE 15 to 18 in. spr., \$4.50

PLANT MORE FRUIT TREES

Fruit trees are just as decorative as any ornamental and they provide wonderful shade also. Homeowners may now easily care for fruit trees with new, improved, simplified sprays and enjoy both fruit and bloom.

LANDSCAPE SIZE FRUIT TREES

We offer many varieties of fruit trees which are large enough for immediate effect. These trees have been transplanted, trimmed and shaped, and are ready to bear fruit almost immediately. Landscape Fruit Trees are dug with a generous ball of earth, insuring quick starting and make fine ornamental and shade trees as well as furnishing delicious fruit.

2-YEAR-OLD APPLE TREES

The best size to plant for a good-sized orchard but will take 4 years or more to bear. Plant 30 feet apart. Selected No. 1 Grade, 11/16 in. cal., 5 to 7 ft.—Each \$1.75

Superior Strains—3 for \$5.00

- ↖ Baldwin. Red, Winter Apple. Juicy, crisp, self-fruitful.
- ↖ Cortland. An all-purpose Winter Apple of improved McIntosh type. McIntosh flavor and quality but clings to tree more than McIntosh. Seldom needs a pollinizer.
- ↖ Delicious. Red. Large red Winter Apple of crisp, fine flavor. Cross pollinators: Cortland, McIntosh.
- ↖ Delicious, Yellow. Golden yellow Winter Apple. Firm, juicy. Self-fruitful.
- ↖ Gravenstein, Red. Red Autumn Apple. Crisp, tart. Self-fruitful.
- ↖ McIntosh, Red. Red Winter Apple. Tender, juicy. Bears fairly young. Cross pollinators: Cortland, Red Delicious.
- ↖ Red Astrachan. Crimson, Summer Apple. A favorite. Cross pollinators: McIntosh, Red Delicious.
- ↖ R. I. Greening. Large, yellow-green Autumn Apple, unexcelled for cooking. Self-fruitful.
- ↖ Yellow Transparent. Pale yellow Summer Apple; abundant bearer; excellent for cooking. Cross pollinators: McIntosh or Delicious.

HALE-HAVEN PEACH \$1.50 each

SMALL FRUITS

PLANTING SUGGESTIONS:

1. Plough or spade entire planting area to depth of 8 inches or more.
2. Open a narrow trench and mix a liberal quantity of Farmmanure in bottom of trench.
3. Insert plants 2 to 3 feet apart. Rows should be 3½ to 4 feet apart.
4. Replace one-half soil and tamp firmly, adding more Farmmanure.
5. Water thoroughly twice weekly until started.

We recommend for a family of four the following number of plants, depending of course, on your appetite for fruit:

| No. of plants | No. of plants |
|-----------------------------|---------------------------------------|
| Blackberries. . . . 1 dozen | Grapes. 4 to 10 |
| Blueberries. . . . 1 dozen | Red Raspberries. 1 to 2 dozen |
| Currants. 6 | Black Raspberries 1 dozen |
| Gooseberries. . . . 6 | |

ALFRED BLACKBERRIES

Tremendously large berries from 1½ to 1¾ in. long, practically free from seeds and extremely juicy. Heavy, 2 year transplants. 6 for \$1.50, 12 for \$2.75

CULTIVATED BLUEBERRIES

For Extra Large, Juicy Berries of Delicious Flavor and Texture

Wonderful eaten fresh-picked, or in pies or frozen. Besides being hardy and heavily productive, Blueberries make handsome landscaping plants with their compact, bushy form and colorful Fall foliage.

PLANT in hole large enough to accept roots spread out; mix plenty of peat moss or humus with soil; mulch.

All plants are 3 yrs. old, 1½ to 2 ft. high, ready to bear. Varieties: Atlantic, late; Dixie, midseason; Jersey, late; Pemberton, midseason; Rancocas, midseason; Rubel, late; Stanley, late

Each order will contain three or more varieties for cross pollination

\$1.40 each, 3 for \$4.00, 5 for \$5.50, 12 for \$11.50
Larger Sizes Available—Priced on Selection

RASPBERRIES

All 2-Yr. No. 1 Transplants, 6 for \$1.65, 12 for \$2.95
Bristol. Highest quality, heavy producing Black Cap. Unexcelled for canning and freezing.

Indian Summer. Red EVERBEARING of choicest flavor and quality. Produces in mid-June and again in early September. Hardy, vigorous.

Morrison. A new giant Black Raspberry of fine flavor and less seedy than most. Strong, vigorous.

Sodus. Outstanding purple Raspberry. Very large and very productive. Firm fruit and hardy.

Taylor. NEW, red, long, conical berry; firm, thick flesh and excellent flavor. Hardy, productive. Late June.

CULTIVATED BLUEBERRY
3 for \$4.00, 12 for \$11.50

RED LAKE CURRANTS

Finest of all Red Currants; unusually large and superior in quality. Long, full clusters. Heavy yields. 2 yr., 65c. each, 3 for \$1.75.

Poorman GOOSEBERRIES

A large, red Gooseberry of excellent quality; prolific; midseason. 2 yr. 90c. each, 3 for \$2.50.

HARDY GRAPES

- ↖ Caco. Finest wine-red Grape of sweet, delicious flavor; large; early September. 2 yr. 75c. each.
- ↖ Concord. Blue-black; mid-September. Most successful in this area. 2 yr., 50c. each.

Fredonia. Earliest and best black Grape. Hardy, productive, juicy. 2 yr., 50c. each.

- ↖ Golden Muscat. New, luscious golden yellow type; vigorous, productive. 2 yr., \$1.00 each.
- ↖ Niagara. Extra large, sweet, white Grape, about mid-September. 2 yr., 50c. each.

Portland. New and largest white Grape, very good for this section; very early, about late August. Delicious. 2 yr., 50c. each.

INDIAN SUMMER RASPBERRIES
6 for \$1.65, 12 for \$2.95

FRUIT TREES—Cont.

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

MOORPARK APRICOT

Large, round, orange fruit with red cheek. Rich-flavored, juicy. Self-fruitful. Plant 15 to 20 feet apart. 2 year, 11/16 in. caliper, \$2.00 each

CRABAPPLE

Selected, No. 1 Grade—11/16 in. caliper 5 to 7 feet
\$1.75 each, 3 for \$5.00

All these varieties are self-fruitful. Plant 15 to 20 feet apart.

- ▷ **Dolgo.** Handsome Red Crabapple in early September. Hardy, productive, juicy. Superb for ruby-red jelly, pickling, and exceptionally good for cider.
- ▷ **Hyslop.** Brilliantly colored, purple-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo.

CHERRIES

1-year-old—11/16 in. caliper—4 to 6 feet—
Top Grade

\$2.50 each, 3 for \$7.00

Plant any two Sweet Cherries for cross pollination.

Plant Sour Cherries 15 to 20 feet; Sweet Cherries 25 to 30 feet apart.

- ▷ **Black Tartarian.** Large, black sweet Cherry; juicy, very rich. Late June.
- ▷ **Governor Wood.** Large, light yellow and red sweet Cherry. Very productive. June.
- ▷ **Montmorency.** Best sour Cherry; finest flavor; productive. July. Self-fruitful.
- ▷ **Schmidt's Bigarreau.** Very large purple red sweet Cherry in July. Splendid flavor.
- ▷ **Windsor.** Delicious, large, almost black Cherry in July. Hardest Sweet Cherry.

**CORTLAND
APPLE**
\$1.75 each

ORANGE QUINCE

An excellent large, round, golden yellow fruit; fine for jellies and jams. Self-fruitful. October. Plant 20 to 25 feet apart. 2 year,\$2.00 each
Large Specimens
\$12.00 to \$20.00

BOSC PEAR
\$2.00 each

25

ORANGE QUINCE

\$2.00 each

▷ **APPLES:** Baldwin, Early McIntosh, Red Delicious—2 year, 9/16 in. caliper. 4 to 5 ft.—\$3.75 each.

▷ **PEARS:** Bartlett, Clapp's Favorite, Duchesse d'Angouleme, Seckel—2 year, 9/16 in. caliper. 3 to 4 ft.—\$3.00 each.

CONCORD GRAPE 50c. each

DWARF FRUITS

These excellent varieties provide same good quality and size of delicious fruit as the large, standard trees, yet they take up little room. Dwarf Fruit tree orchards are ideal for smaller home grounds or around ranch-house type that "hugs the ground." Being dwarf, fruit is easily picked.

Rosedale's Dwarf Fruit trees are sturdy, vigorous growers, properly grafted on the best Mulling root stock.

PEACHES

Selected, 1-yr. Budded Trees—9/16 in. caliper
4 to 5 feet—\$1.50 each, 3 for \$4.00

All these varieties are self-fruitful. Plant 15 to 20 feet apart.

- ▷ **Belle of Georgia.** Favorite white freestone Peach, ripening late August.
- ▷ **Early Elberta.** Excellent, new yellow freestone. Late August.
- ▷ **Elberta.** Most popular yellow Peach. Juicy, freestone. Early September.
- ▷ **Golden Jubilee.** Best, early golden-yellow Peach. Freestone. Mid-August.
- ▷ **Hale-Haven.** Beautiful, hardy yellow freestone. About late August.
- ▷ **Valiant.** Juicy, yellow freestone like Elberta. Early September.

PLUMS

Selected, No. 1 Grade — 2 Years Old
11/16 in. caliper, \$2.25 each, 3 for \$6.00

Plant 15 to 20 feet apart

- ▷ **Abundance.** Large, very tender, sweet, juicy, good for canning; early August. Amber turning to red.
- ▷ **Burbank.** Large, cherry-red Plum about mid-August. Good producer.
- ▷ **Reine Claude (Green Gage).** Large and rich-flavored in early September. Cross-pollinate with Stanley or other American or European variety.
- ▷ **Stanley.** Large, deep bluish-purple about early September. Excellent, sweet flavor.
For cross-pollination: Abundance and Burbank are Japanese varieties and should be planted together. Stanley, an American variety is self-fruitful. American and Japanese varieties do not mix.

Hardy Climbing Vines

TRUMPET VINE (*Campsis radicans*) \$1.00 each

Our cheery, reliable Vines—some evergreen, many flower-bearing—transform bare walls and fences and fill in and soften new, undeveloped plantings, creating a feeling of warmth, beauty and permanence. To aid you in starting a quick vine growth, we preplanted in pots most of our varieties and many will climb 6 to 10 feet the first season.

For planting Vines, please see directions for planting bare root material on page 8.

Akebia

Akebia quinata. A very graceful, rapid-growing vine. The foliage is extremely attractive and the rosy-purple flowers in May are followed by ornamental fruit. F

2 yr. \$1.00 each, \$10.00 per doz.

Campsis • TRUMPET VINE

Campsis radicans (TRUMPET CREEPER). Orange-scarlet trumpet-shaped flowers in clusters from July to September; rapid grower but does not flower young. Must be supported. F

2 yr. \$1.00 each, \$10.00 per doz.

CLEMATIS JACKMANNI \$1.25 each

Celastrus • BITTERSWEET

Celastrus orbiculatus (ORIENTAL BITTERSWEET). Everyone knows and likes Bittersweet with its striking panicles of berries. Splendid for fences and rocks. Oriental variety differs from native only in that possibly it bears more berries. F

18 to 24 in. \$1.25 each, \$12.50 per doz.

C. scandens. Well-known NATIVE BITTERSWEET with large clusters of brilliant red and yellow berries in great profusion. Similar to Oriental. F

18 to 24 in. \$1.25 each, \$12.50 per doz.

Clematis

Clematis paniculata (OLD-FASHIONED CLEMATIS). The sweet September fragrance of this old favorite indicates its presence long before the flower laden vine is seen and the feathery seeds are also decorative. A real addition to the home. F

2 yr. \$1.00 each, \$10.00 per doz.

3 yr. heavy potted. \$1.50 each

C. Jackmanii (PURPLE CLEMATIS). Large purple single flowers from June to August. Striking. M

No. 1 2 yr. \$1.25 each, \$12.50 per doz.

6 in. pots. \$1.75 each

C. J. Mme. Andre. Large, red single flowers throughout the Summer. S

No. 1 2 yr. \$1.25 each | 6 in. pots \$1.75 each

C. J. Ramona. Large, lavender-blue single flowers throughout the Summer. S

No. 1 2 yr. \$1.25 each | 6 in. pots \$1.75 each

C. undulata. Large, bluish white flowers

No. 1, 2 yr.

\$1.25 each

6 in. pots

\$1.75 each

EVERGREEN BITTERSWEET
8 to 10 in., 75c. each

SILVER LACE VINE

\$1.25 each

Euonymus

Euonymus Fortunei Coloratus (WINTER CREEPER). Outstanding for its dark purple leaves in Summer which turn rose color in Fall. Also useful as a ground cover.

10 to 12 in. 60c. each, \$6.00 per doz.

E. F. Kewensis. Tiny leaves marked white along the veins. Very dainty and effective. 3 in. pots. \$1.25 each

E. F. Radicans. Smaller, more pointed leaves with white veins distinguish this from the more rapid growing E. F. vegetus. S

10 to 12 in. \$1.25 each

12 to 15 in. 1.75 each

E. F. Variegata. A very interesting form with leaves variegated white. Foliage turns a delightful warm rose color in Winter. 4 in. pots. \$1.25 each

E. F. Vegetus (EVERGREEN BITTERSWEET). Low spreading shrub, but will climb high on masonry walls. Orange berries. M

8 to 10 in. 75c. each, \$7.50 per doz.

12 to 15 in. \$2.25 each

Hydrangea Petiolaris

This Climbing Hydrangea is a superb vine having broad, handsome, overlapping foliage and delightfully fragrant panicles of white flowers in July. Climbs on any surface and is extraordinarily beautiful.

4 in. pots

\$2.50 each

WISTERIA

\$1.75 each

IVIES

Hedera helix (ENGLISH IVY). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover; plant in mass under trees or other shady or semi-shady locations. M

3 in. pots. 40c. each, \$4.50 per doz.

4 in. pots, heavy plants. 85c. each, \$9.00 per doz.

H. helix baltica (BALTIC IVY). A hardy evergreen variety which withstands much lower temperatures than the English form. Small foliage.

3 in. pots. 50c. each, \$5.00 per doz.

H. Roumanian Ivy, Var. Hardier strain of English Ivy. Evergreen.

3 in. pots. 50c. each, \$5.00 per doz.

HARDY CLIMBING VINES—Continued

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

IVIES—Continued

Parthenocissus quinquefolia (VIRGINIA CREEPER, or WOODBINE). This vigorous, handsome vine is particularly striking, with its Fall coloring. Especially recommended for walls and fences. F

2 yr. \$1.00 each, \$10.00 per doz.

P. tricuspidata veitchii (BOSTON IVY). Closely clinging vine with medium sized leaves, turning red in Autumn. Its rapid growth and close clinging habit, make it most popular for brick, stone, or stucco walls. M

2 yr. \$1.00 each, \$10.00 per doz.

Lonicera • HONEYSUCKLE

Lonicera japonica Halliana (HALL'S HONEYSUCKLE). Semi-evergreen ground cover or vine, with fragrant, yellow and white flowers. Indispensable where thick, quick coverage is desired. F

2 yr. 50c. each, \$5.00 per doz., \$37.50 per 100

L. Hermanii. A bright, gay, heavy-flowering Honeysuckle Vine. Blooms are pink in bud, but open yellow to orange.

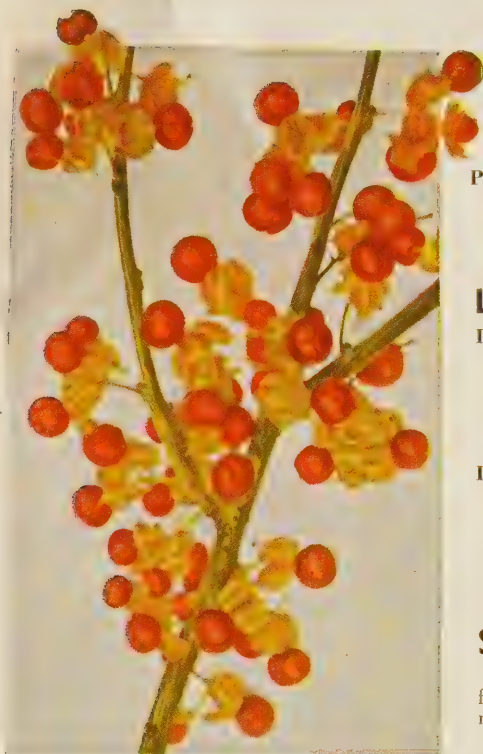

2 yr. \$1.25 each, \$12.50 per doz.

Polygonum Aubertii SILVER LACE

Slender, vigorous vine for arbor, trellis or fence. Curious silver-white flowers in tremendous profusion. F

2 yr., field-grown \$1.25 each
\$10.00 per doz.

6 in. pots. \$1.50 each

ORIENTAL BITTERSWEET \$1.25 each

Wisteria Sinensis • CHINESE WISTERIA

Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. White and purple. M

2 yr. \$1.75 each | 4 yr. \$2.75 each

Larger Sizes Available—Priced on Selection

CLIMBING HYDRANGEA

4 in. pots, \$2.50 each

HEDGES and SCREEN PLANTINGS

The Friendly Way to Privacy

Hedges and Screen Plantings have many uses—and accomplish these purposes attractively from both sides. They give privacy, keep out sound, present a pleasing picture at the same time that they eliminate an unpleasant one, keep out the "wilderness" of uncultivated land surrounding your grounds, and they serve as a background for colorful gardens.

We suggest:

EVERGREEN TREES AND SHRUBS

**For Permanent, Year-Round Screening,
Hardy and Always Handsome**

TAXUS (Yew). The finest of hedge materials. Prices page 30.

HEMLOCK. Best all-purpose hedge. Page 31.

ARBORVITAE. Particularly valuable where narrow barrier is required. Page 31.

HOLLY. Thick, impenetrable, and unusual. Page 22.

JULIANA BARBERRY. Thorny evergreen. Page 21.

DECIDUOUS TREES AND SHRUBS

PRIVET. Quick-growing inexpensive. Page 4.

BARBERRY. Slower, informal (needs less trimming). Red berries in Fall. Page 2.

EUONYMUS Alatus Compacta. Dwarf brilliant Fall color; easily trimmed. Page 3.

SPIRAEA Vanhouttei. Medium growth and profuse flowering. Trims well. Page 7.

LILAC. Very informal and graceful. Should be trimmed very little. Page 6.

HAWTHORN (Crataegus). Ideal large impenetrable barrier. Page 12.

BERBERIS JULIANA
12 to 15 in., \$3.75

EVERGREENS (Conifers)

*Handsome and Suitable for Almost
Every Purpose*

EVERGREENS are most adaptable, offering a wide range of shapes, colors and uses — from low, spreading dwarf forms to fast, growing, tall, columnar types; from deep greens to blue-greens, gray-greens and golden forms. For uses in all imaginable types of situations — low foundations to high screenings, background plantings, or accent points.

All our Evergreens are of top grade, and of unusual vigor and fullness.

All Evergreens are expertly balled and burlapped (B&B), thereby preserving their excellent root systems.

Planting Instructions for B&B plants will be found on page 31.

We list below a few of the varieties and sizes growing in the nurseries. You are urged to make a personal selection at the nurseries.

HATFIELD YEW (*Taxus Hatfieldii*)
18 to 24 in. hgt., \$5.50

**SPREADING
JAPANESE YEW**
(*Taxus cuspidata*)

→
18 to 24 in.
spr.,
\$6.75

**UPRIGHT DWARF
and HICK'S YEW**

See Page 30

HEMLOCK (*Tsuga canadensis*)
3 to 4 ft. hgt., \$8.50

PFITZER JUNIPER (*Juniperus Pfitzeriana*)
2 to 2½ ft. spr., \$7.50

EVERGREENS (Conifers)—Continued

CHAMAECYPARIS • Retinospora

These thrive best in moist soils and situations not too much exposed to wintry gales. Should receive frequent shearing to keep them thick and attractive.

- Chamaecyparis obtusa gracilis nana compacta** (DWARF HINOKI CYPRESS). Very dwarf, dark, green, irregular foliage. Extremely interesting for the rockery. S
9 to 12 in. hgt. \$5.00 | 12 to 15 in. hgt. \$7.50 | 15 to 18 in. hgt. \$10.00 | 18 to 24 in. hgt. \$12.00
- C. Plumosa** (PLUME CYPRESS). Light green, soft feathery, plumelike foliage. F
2 to 2½ ft. hgt. \$5.00 | 2½ to 3 ft. hgt. \$6.00 | 3 to 3½ ft. hgt. \$7.50 | 3½ to 4 ft. hgt. \$9.00
- C. Plumosa Aurea** (GOLDEN PLUME CYPRESS). Similar to Plumosa, except that the tips of growth are a golden color. F
18 to 24 in. hgt. \$4.50
- C. Squarrosa Nana** (MOSS CYPRESS). An unusual gray-blue — a handsome, striking appearance and color. M
15 to 18 in. hgt. \$4.50

JUNIPERUS • Junipers

All the Junipers are valuable ornamental plants—the upright species as single specimens or in groups and the low forms well adapted for rockery, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

- Juniperus chinensis, Bar Harbor** (BAR HARBOR JUNIPER). A very, very low and flat-growing type of Juniper. A creeping form most desirable for bank plantings, rockeries and in front of window wells where the flattest possible growth is needed. Blue-green foliage. S
15 to 18 in. spr. \$6.00 | 18 to 24 in. spr. \$7.50
- J. chinensis Keteleeri** (KETELEER JUNIPER). This comparatively new variety is never affected by aphid or blight. It grows in pyramidal form and is of very pleasing light green color all year round. M
2 to 2½ ft. hgt. \$5.50
- J. chinensis Pfitzeriana** (PFITZER'S SPREADING JUNIPER). A handsome, spreading form with gray-green, plume-like foliage. Extremely useful as a filler in foundation or border plantings. Hardy and indifferent to drought. M
18 to 24 in. spr. \$6.00 | 2 to 2½ ft. spr. \$7.50 | 2½ to 3 ft. spr. \$10.00 | 3 to 3½ ft. spr. \$15.00
- J. c. Pfitzeriana compacta glauca**. A dwarf, compact type with blue-gray foliage. Excellent for banks, rock gardens or where low, spready plants are required. S
15 to 18 in. spr. \$5.00 | 18 to 24 in. spr. \$6.00
- J. c. Pfitzeriana Hetzi**. More rapid-growing than the true Pfitzer. Intense, blue-gray foliage. Good for both formal and informal effects. M
15 to 18 in. \$5.00 | 18 to 24 in. \$7.00
- J. c. Stricta** (GREEK JUNIPER). Slow-growing and of upright, columnar habit. The gray-green foliage is a useful color accent. S
12 to 15 in. hgt. \$3.00 | 15 to 18 in. hgt. \$4.50 | 18 to 24 in. hgt. \$5.50 | 2 to 2½ ft. hgt. \$7.50
- J. c. Sargenti**. A low, trailing form, with deep green foliage. Best Juniper for rock gardens. S
12 to 15 in. spr. \$5.00 | 15 to 18 in. spr. \$6.00 | 18 to 24 in. spr. \$7.50
- J. horizontalis plumosa**. Dwarf and low-spreading with plummy foliage from center. Green in Spring, gray-green in Summer, heather tones in Winter. S
15 to 18 in. spr. \$4.25 | 18 to 24 in. spr. \$5.50

THUJA OCCIDENTALIS NIGRA
3 to 4 ft. hgt., \$7.50

WHITE PINE (Pinus strobus)
5 to 6 ft. hgt., \$14.00

PICEA • Spruce

Spruces will grow in almost any kind of moderately moist soil; are easily transplanted. Recommended for lawn specimens, screen or border plantings; very popular as landscape material.

- Picea Abies** (NORWAY SPRUCE). Rapid growing, Christmas-tree type attaining great size; useful for windbreak or as single specimen. F
3 to 4 ft. \$7.50 | 4 to 5 ft. \$12.00
5 to 6 ft. \$14.00
- P. Orientalis** (ORIENTAL SPRUCE). Slow-growing, very graceful tree of dark, glossy foliage. Of great beauty and dignity. S
2 to 3 ft. \$7.50

Picea Pungens (COLORADO BLUE SPRUCE). Very handsome. Very vigorous. A great favorite.
3 to 3½ ft. \$12.00

P. pungens glauca (KOSTER BLUE SPRUCE). Bluest of all. Regular and symmetrical, with somewhat pendulous branches. For best effect, use as an accent or specimen
2½ to 3 ft. \$15.00

P. glauca conica (DWARF ALBERTA SPRUCE). Most distinctive of all Spruces. A dense, narrow pyramid with blue-green needles—a perfect miniature of the big Albertiana. Prefers slight shade in cool, moist, well-drained location.
15 to 18 in. \$6.00 | 18 to 24 in. \$7.50

PINUS • Pine

The stout root systems of Pines help them to obtain water in poor, sandy soils and dry situations, and they thrive in any good soil.

Pinus mugho mughos (DWARF MUGHO PINE). Low mounded Pine, with short, stubby needles. Slow growing, attaining greater spread than height. S
12 to 15 in. spr. \$5.00 | 15 to 18 in. spr. \$7.00

P. Strobus (WHITE PINE). Beautiful in every stage of growth. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily. F

| | |
|------------------------|-------------------------|
| 3 to 4 ft. hgt. \$5.00 | 7 to 8 ft. hgt. \$25.00 |
| 4 to 5 ft. hgt. 8.50 | 8 to 9 ft. hgt. 35.00 |
| 5 to 6 ft. hgt. 14.00 | 9 to 10 ft. hgt. 40.00 |
| 6 to 7 ft. hgt. 18.00 | 10 to 12 ft. hgt. 50.00 |

PSEUDOTSUGA • Douglas Fir

Pseudotsuga taxifolia (DOUGLAS FIR). This handsome tree with its gray-green foliage is very hardy and extremely ornamental at all stages of growth. Thrives in Canada and will endure both drought and cold. Some specimens are rich, deep green; others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and we will be glad to have you make your selection.

| | |
|------------------------|-------------------------|
| 2 to 3 ft. hgt. \$5.50 | 7 to 8 ft. hgt. \$27.50 |
| 3 to 4 ft. hgt. 7.50 | 8 to 9 ft. hgt. 35.00 |
| 4 to 5 ft. hgt. 9.00 | 9 to 10 ft. hgt. 45.00 |

TAXUS • Yew

These rich, dark green Evergreens continue to be the favorites among the Evergreens. Their hardiness, their freedom from ills and their slow, rugged development make them deserving of their great popularity. Yews thrive best in a moderately sandy loam but will endure adverse soil conditions and shade. The many varied shapes and types of growth—upright columnar, pyramidal, dwarf, spreading, drooping—to mention just a few—make Yews suitable for almost any landscape requirements. They make the finest of all hedges. They stand heavy pruning well. Our selection of Yews is very extensive and of the finest quality. We list below some of the varieties and sizes which we have at the nurseries.

Taxus baccata repandens (SPREADING ENGLISH YEW). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique. Very desirable for low plantings. M

| | |
|-------------------|--------|
| 12 to 15 in. spr. | \$4.95 |
| 15 to 18 in. spr. | 6.00 |
| 18 to 24 in. spr. | 7.50 |
| 2 to 2½ ft. spr. | 9.00 |
| 2½ to 3 ft. spr. | 12.00 |

T. cuspidata (SPREADING JAPANESE YEW). This dense, spreading form with its deep green foliage is very hardy. Especially useful near the house. M

| | |
|-------------------|--------|
| 18 to 24 in. spr. | \$6.75 |
| 2 to 2½ ft. spr. | 9.00 |
| 2½ to 3 ft. spr. | 12.00 |
| 3 to 3½ ft. spr. | 16.00 |
| 3½ to 4 ft. spr. | 22.50 |
| 4 to 4½ ft. spr. | 27.50 |
| 4½ to 5 ft. spr. | 35.00 |

T. media, Halloran, Thayeri, Wardi, densiformis—same prices as *Taxus cuspidata* above.

SPREADING ENGLISH YEW (*Taxus baccata repandens*)
18 to 24 in. spr., \$6.00

DOUGLAS FIR (*Pseudotsuga taxifolia*)
4 to 5 ft. hgt. \$9.00

Taxus cuspidata Capitata (UPRIGHT JAPANESE YEW). Upright tree form of *cuspidata*—a very desirable variety for foundation plantings. Excellent for hedge purposes. M

| | |
|-------------------|--------|
| 18 to 24 in. hgt. | \$6.50 |
| 2 to 2½ ft. hgt. | 8.00 |
| 2½ to 3 ft. hgt. | 12.00 |
| 3 to 3½ ft. hgt. | 16.00 |
| 3½ to 4 ft. hgt. | 18.00 |
| 4 to 4½ ft. hgt. | 22.50 |
| 4½ to 5 ft. hgt. | 30.00 |
| 5 to 5½ ft. hgt. | 40.00 |
| 5½ to 6 ft. hgt. | 45.00 |

A few large specimens priced on selection

T. c. columnaris. A narrow, pyramidal form requiring a minimum of shearing. Dark green and very luxuriant. Fine for accent. M

| | |
|------------------|---------|
| 4½ to 5 ft. hgt. | \$25.00 |
| 5 to 5½ ft. hgt. | 30.00 |

T. c. Moon's Columnar. A generally upright variety but usually having a spread very nearly equal to height. Its foliage is heavy and of deepest dark green. Hardy and slow in growth. Highly recommended. S

| | |
|------------------|---------|
| 3 to 3½ ft. hgt. | \$25.00 |
| 3½ to 4 ft. hgt. | 30.00 |

T. c. nana (DWARF JAPANESE YEW). Dwarf, compact and low-spreading in habit. Very hardy. Because of its slow-growing nature, it is especially useful in foundation plantings, for it will not outgrow its location.

| | |
|-------------------|--------|
| 12 to 15 in. spr. | \$3.75 |
| 15 to 18 in. spr. | 5.00 |
| 18 to 24 in. spr. | 8.00 |
| 2 to 2½ ft. spr. | 12.00 |
| 2½ to 3 ft. spr. | 20.00 |

Taxus media Brownii (BROWN'S YEW). This rounded, full-centered type of compact Yew is our very best type for hedges, where medium height and considerable fullness is desired. Our stock of this variety is especially fine. M

| | | | |
|-------------------|--------|------------------|--------|
| 15 to 18 in. spr. | \$4.75 | 2 to 2½ ft. spr. | \$9.00 |
| 18 to 24 in. spr. | 6.75 | 2½ to 3 ft. spr. | 12.00 |

T. m. Hatfieldii (HATFIELD YEW). Finest upright Yew, making the finest of hedges of all the Yews, we believe. Especially useful, for it holds its form almost without trimming. M

| | |
|-------------------|--------|
| 15 to 18 in. hgt. | \$4.95 |
| 18 to 24 in. hgt. | 5.50 |
| 2 to 2½ ft. hgt. | 7.50 |
| 2½ to 3 ft. hgt. | 12.00 |
| 3 to 3½ ft. hgt. | 17.50 |
| 3½ to 4 ft. hgt. | 20.00 |

T. m. Hicksii (HICKS YEW). Exceptionally dark green needles and red berries which it grows in profusion, makes this one of the most interesting Yews. Upright, columnar in habit. Also useful as hedge material. M

| | |
|-------------------|--------|
| 18 to 24 in. hgt. | \$5.00 |
| 2 to 2½ ft. hgt. | 6.00 |
| 2½ to 3 ft. hgt. | 10.00 |
| 3 to 3½ ft. hgt. | 12.50 |
| 3½ to 4 ft. hgt. | 15.00 |
| 4 to 4½ ft. hgt. | 20.00 |
| 4½ to 4 ft. hgt. | 25.00 |

T. m. Vermeulen. A dense-growing, upright, rather rounded, type of Yew. Slightly irregular in character, it makes an interesting addition to the landscape planting. Its extremely slow growth makes it even more valuable. S

| | |
|------------------|---------|
| 3 to 3½ ft. hgt. | \$35.00 |
|------------------|---------|

BOOTH GLOBE ARBORVITAE (*Thuja occidentalis Boothii*)
15 to 18 in. spr., \$3.75

EVERGREENS (Conifers)—Continued

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

THUJA • Arborvitae

These ornamental Evergreen trees are favorites for formal gardens because of their regular symmetrical habit. Especially adapted for slender hedges and windbreaks where space is a factor

Thuja occidentalis Boothii (BOOTH GLOBE ARBORVITAE). Dense, globe-shaped variety which maintains its shape without shearing. Foliage seagreen in Summer, bronze in Winter. Perfectly hardy, growing to about 3 ft. high. S

15 to 18 in. spr.\$3.75

T. o. nigra (DARK AMERICAN ARBORVITAE). An upright variety of deep, rich green. Especially useful in hedges and screenings. M

2 to 3 ft. hgt.\$5.50
3 to 4 ft. hgt. 7.50
4 to 5 ft. hgt.10.00
5 to 6 ft. hgt.12.00
6 to 7 ft. hgt.15.00

T. o. pyramidalis (PYRAMIDAL ARBORVITAE). The deep green color and upright, pyramidal form renders it conspicuous in contrast with other evergreens. Very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge. M

4 to 5 ft. hgt.\$8.00
5 to 6 ft. hgt.10.00
5 to 7 ft. hgt.12.00
7 to 8 ft. hgt.14.00
8 to 9 ft. hgt.16.00

T. o. robusta (WARE or SIBERIAN ARBORVITAE). A sturdy variety of broad, pyramidal form upon maturity. Gray-green foliage. Dense, rugged grower of slow habit. M

5 to 6 ft. hgt.\$12.00

T. orientalis Sieboldii (GOLDEN BIOTA). A dwarf, rounded plant with yellow to bronze foliage. Always retains its neat, compact form without training. S

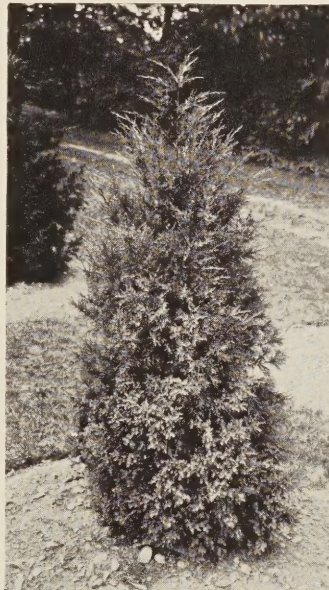

15 to 18 in. hgt.\$3.75

TSUGA • Hemlock

Hemlocks can be used in many different ways and in each case they are eminently suitable and beautiful. As lawn specimens they attain great size and grandeur; by shearing, they may be used in foundation plantings and kept from overgrowing for years and years. For border or screen, they form a most naturalistic background. Hemlocks are practically immune to insects and disease.

Tsuga canadensis (CANADIAN HEMLOCK). A handsome, ornamental tree, growing 70 to 100 ft. high, but with shearing may be kept within any desired height. Wonderful for thick hedge. Its graceful, feathery effects are admired by everyone. F

18 to 24 in. hgt.\$5.00
2 to 2½ ft. hgt. 6.00
2½ to 3 ft. hgt. 6.95
3 to 4 ft. hgt. 8.50
4 to 5 ft. hgt.14.00
5 to 6 ft. hgt.16.00
6 to 7 ft. hgt.20.00
7 to 8 ft. hgt.30.00
8 to 9 ft. hgt.45.00
9 to 10 ft. hgt.65.00
10 to 12 ft. hgt.100.00

KETELEER'S JUNIPER
(Juniperus Keteleeri)

2-2½ ft. hgt., \$5.50

GREEK JUNIPER (Juniperus chinensis stricta)

18 to 24 in. hgt., \$5.50

TSUGA—Continued

Tsuga caroliniana (SOUTHERN HEMLOCK). Native in the mountains of the Southern states. Perfectly hardy here in the North. A beautiful tree, with dark green foliage and a habit of growth which makes it distinctly different from the Canadian Hemlock. M

3 to 4 ft. hgt.\$10.00
4 to 5 ft. hgt. 16.00
5 to 6 ft. hgt. 20.00
6 to 7 ft. hgt. 25.00
7 to 8 ft. hgt. 35.00

T. Sieboldii. A dwarf Hemlock of pyramidal habit. Not generally seen in this area, yet entirely hardy. Very popular for home plantings. S

3 to 3½ ft. hgt.\$12.00
3½ to 4 ft. hgt. 15.00
4 to 4½ ft. hgt. 17.50
4½ to 5 ft. hgt. 25.00

We handle ALL Evergreens B&B—that is with soil on the roots. Therefore, we do not recommend shipping evergreens beyond our truck delivery area. Many varieties are dug and ready to go at the nursery. They can be taken by car and planted the same day.

MUGHO PINE (Pinus mugho mughus)

15 to 18 in. spr., \$7.00

PLANTING SUGGESTIONS

As a general guide to planting B&B plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set the top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

BAR HARBOR JUNIPER

(Juniperus chinensis, Bar Harbor)

15 to 18 in. spr., \$6.00

A ROSEDALE GIFT CERTIFICATE

The Answer To Your Gift Problems

A plant or tree is always in good taste—always welcome—always suitable for any occasion—Birthdays, Easter, Christmas, House-warmings, Anniversaries, or as a Memorial.

Living plants are the gifts that grow in size and value as the years go on. The Rosedale Gift Certificate is so worded that either the particular plant OR the amount given maybe specified. For a gift certificate, just

SEND US: 1. The name and address of the person who is to receive the certificate.
2. **YOUR** name and address.
3. Your check or money order for the amount of the gift.

WE WILL: 1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).
2. Send the Gift Certificate so as to arrive on a certain date if you will tell us the date.

There is no fuss and bother with the Rosedale Gift Certificate and more and more people are using this intriguing way of remembering—and being remembered.

WILT-PRUF

General Information

This year we have tried particularly to make the information herein easier to obtain and more convenient for you to use and yet give you the necessary and pertinent facts.

Opinions and recommendations are based on growing habits observed in our nurseries. Appropriate allowances must be made for variations in climate, temperature, exposure and elevation even within Westchester County.

Although authorities differ we have tried to give you the consensus of opinion in coding our plant material as to speed of growth:

S—Slow-growing M—Moderate-growing F—Fast-growing

Hours: 7:30 A.M. to 6 P.M. Mondays through Saturdays.

9 A.M. to 5 P.M. Sundays, March 15, 1953 to July 5, 1953

Telephones: Tarrytown 4-2620 Pleasantville 2-1300

MAIL ORDERS

While ours is primarily a local business within our truck delivery area we can handle Parcel Post, Express and Freight deliveries of all plants except those requiring a ball of earth.

No Mail Orders can be accepted for less than \$5.00 except on Bulbs.

No C.O.D. shipments will be made unless order is accompanied by a 25 per cent deposit.

All shipping charges must be borne by the customer except where otherwise noted.

Please be sure to give correct shipping address and instructions.

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value. The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times.

Please address all mail orders and communications to our Post Office Address—**Eastview, N. Y.**

Our Guarantee

We guarantee all nursery stock to be in first-class condition when delivered to the customer. Please advise us promptly of any damage or loss in handling.

We guarantee our nursery stock to be true to name and use every care to properly label as sold. Should any prove untrue we agree to replace or refund purchase price.

Provided account is paid in accordance with agreed upon terms and plants have received reasonable care, we will replace at one-half price of the plants, any woody plants furnished which if planted in the Spring fail to survive through the Summer, or if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above plus the cost of planting.

An Effective Planting of Long-Lasting Beauty and Easy Maintenance May be Produced by Our Landscape Department
